12.	Short Term Deposits	<p>a. Total investment of the Scheme in Short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised upto 20% of the net assets with prior approval of the Board of Trustees. Further, investments in Short Term Deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.</p> <p>b. Scheme shall not invest more than 10% of the net assets in short term deposit(s), of any one scheduled commercial bank including its subsidiaries.</p> <p>c. Scheme shall not invest in short term deposit of a bank which has invested in that Scheme.</p> <p>d. The Scheduled Commercial Banks in which a scheme has Short Term Deposits shall not invest in the Scheme until the Scheme has Short Term Deposits with such bank.</p>	Clause 12.16 of the Master Circular for Mutual Funds dated June 27, 2024 - Pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks.

		Further as per clause 12.16.1.9 of the Master Circular for Mutual Funds dated June 27, 2024, it is clarified that the said limits shall not apply to term deposits placed as margins for trading in cash and derivatives market.	
13.	Investment in Tri-party Repo before the closure of NFO.	Yes, in accordance with SEBI Guidelines.	Clause 1.10.3 of the SEBI Master Circular dated June 27, 2024 - The scheme may deploy the NFO proceeds in Tri-party Repo on G-sec or T-bills before the closure of NFO period. The appreciation received from investment in Tri-party Repo shall be passed on to investors. In case if the scheme is not able to garner the minimum subscription amount during the NFO period the interest earned upon investment of NFO proceeds in Tri-party Repo shall be returned to investors, in proportion of their investments, along-with the

			refund of the subscription amount. The AMC shall not charge any investment management and advisory fees on funds deployed in Tri-party Repo during the NFO period.
Change in Asset Allocation Pattern			<p>Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for short term and defensive considerations as per Paragraph 1.14.1.2 of SEBI Master Circular dated June 27, 2024, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.</p>
Investment Strategy	<p>The scheme aims to generate capital appreciation by investing predominantly in equity and equity related securities with a focus on companies engaged in Financial related sectors.</p> <p>The indicative list of sectors that the scheme would invest in:</p> <ul style="list-style-type: none"> • Banks & intermediaries • Non-banking financial companies • Housing Finance Companies • Fin-tech • Micro Finance Companies • Broking and securities • Trading exchanges, investment/trading intermediaries/service providers, depositories and related infrastructure providers • Wealth management or various kinds of asset management • Insurance & intermediaries • Currency and Forex • Credit cards and payment gateways or such infrastructure/service providers • Internet based finance • Rating agencies • Financial data providers • Clearing house • Distributors of financial products • Intermediaries/ infrastructure providers of all the above segments which are listed/existing now and may come in future. <p>Please note that the above list is indicative and not exhaustive, and the Fund Manager may add such other new and emerging sector/industries which satisfy the</p>		

	<p>Financial Services theme. The fund manager may also add other sectors/segments as may be added in Nifty Financial Services Index from time to time.</p> <p>The scheme would be agnostic to market capitalization and may take concentrated exposure to specific stocks. The fund manager may not have any bias towards investing style in selecting investment opportunities. The scheme may also invest some portion of the investible funds in equity and equity related securities of companies other than in the companies engaged in Financial Services space. An exposure to various derivatives instruments is likely - for the purposes of hedging, portfolio balancing and optimizing returns.</p> <p>In case of Debt and Money Market securities, the scheme aims to identify securities which offer optimal level of yields/returns, considering risk-reward ratio. With the aim of controlling risks rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the Risk Management team of the AMC. The credit evaluation includes a study of the operating environment of the issuer, the short as well as long-term financial health of the issuer. The AMC may consider the ratings of such Rating Agencies as approved by SEBI to carry out the functioning of rating agencies.</p> <p>The scheme may also invest in Units issued by InvITs after doing due research on the same. The scheme may also invest in preference shares.</p> <p>Further, the Scheme may invest in other schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity with the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments.</p> <p>The Scheme may use derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements or other derivative instruments for the purpose of hedging, portfolio balancing and other purposes, as permitted under the Regulations. Hedging using Interest Rate Futures could be perfect or imperfect, subject to applicable regulations. Usage of derivatives may expose the Scheme to certain risks inherent to such derivatives. It may also invest in securitized debt. The scheme may undertake repo transactions in corporate debt securities in accordance with the directions issued by RBI and SEBI from time to time. Such an investment shall be made subject to the guidelines which may be prescribed.</p> <p>For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so with the prior approval of the Board of the AMC/Trustee.</p>

Risk Profile of the Scheme	<p>Scheme Specific Risk Factors</p> <p>The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc. Some of the Risks are listed below:</p> <p>1. Risks Associated with investing in Equity & Equity related instruments</p> <ol style="list-style-type: none"> 1. Investment Risk - The value of the Scheme's investments may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, etc. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. 2. Settlement Risk - Settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. The Scheme may face liquidity risk or execution risk or redemption risk or the risk of NAV going below par. 3. Valuation Risk - The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date for disinvestment. 4. Liquidity Risk - The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors, etc. based on certain investment parameters as adopted internally by AMC. While at all times the AMC will endeavour that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme(s) are avoided, the funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. 5. Other Risk - At times, taking benefit of investing in Special Situations may involve certain risks like the promoter may choose not to accept the discovered prices or the Regulatory hurdles may delay any specific corporate action. 6. Price Risk - The price of equity and equity related securities may go up or down depending on a variety of factors and hence investors may note that AMC/Fund Manager's investment decisions may not be always profitable. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity securities and utilising debt and money market instruments as a defensive investment strategy. <p>2. Risk Associated with the Scheme's strategy:</p> <p>The Scheme will invest at least 80% of its net assets in equity / equity related instruments of companies selected on the basis of financial services theme. The scheme is thematic in nature, hence will be affected by the risks associated with the theme/sector. This will limit the capability of the scheme to invest in other sectors/themes. The Scheme would invest in equity and equity related securities of</p>
-----------------------------------	---

companies engaged in the particular sector / theme and hence concentration risk is expected to be high. Also, as with all equity investing, there is a risk that companies in that specific sector / theme will not achieve its expected earnings results, or that an unexpected change in the market or within the company will occur, both of which may adversely affect investment results. Owing to high concentration risk for thematic / sectorial scheme, risk of capital loss is highest. There is an element of unpredictable market cycles that could run for extended periods. Loss of value due to macro economic changes, obsolescence, or regulatory changes coupled with structural rigidity of the scheme can lead to permanent loss of capital.

3. Risk factors associated with investing in Debt and Money Market Instruments:

Risks associated with debt /money market instruments are as under:

Interest rate Risk: Price of a fixed income instrument generally falls when the interest rates move up and vice- versa. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

Spread Risk: In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Credit risk or default Risk: Credit risk is the risk that the issuer of a debenture/bond or a money market instrument may default on interest and/or principal payment obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety, and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity & Settlement Risk: The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods, and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to adverse movements in NAV.

Reinvestment Risk: Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.

Prepayment Risk: The Scheme may receive payment of monthly cashflows earlier than scheduled, which may result in reinvestment risk.

Market Risk: Lower rated or unrated securities are more likely to react to developments affecting the market as they tend to be more sensitive to changes in economic conditions than higher rated securities.

4. Risks associated with investing in Tri Party Repo through CCIL (TREPS): Risk of exposure in the Tri-party Repo settlement Segment provided by CCIL emanates mainly on two counts –

- Risk of exposure in the Triparty Repo settlement Segment provided by CCIL emanates mainly on two counts Risk of failure by a lender to meet its obligations to make funds available or by a borrower to accept funds by providing adequate security at the settlement of the original trade of lending and borrowing under Triparty Repo transaction.
- Risk of default by a borrower in repayment.

5. Risk factors associated with Derivatives:

i) General Risk Factors associated with derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and the decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Trading in derivatives has the following risks:

- An exposure to derivatives in excess of the hedging requirements can lead to losses.
- An exposure to derivatives, when used for hedging purposes, can also limit the profits from a genuine investment transaction.
- Derivatives carry the risk of adverse changes in the market price.
- Illiquidity Risk i.e. risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market.

The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. Usage of derivatives will expose the Scheme to liquidity risk, open position risk, and opportunities risk etc. Such risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. In case, of the derivative strategies, it may not be possible to square off the cash position against the corresponding derivative position at the exact closing price available in the Value Weighted Average Period. Debt derivatives instruments like interest rate swaps, forward rate agreements or other derivative instruments also involve certain risks. For details, please refer SAI.

6. Risks Associated with Stock Lending & Short Selling:

i) Risks associated With Stock Lending: The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there can be temporary illiquidity of the securities that are lent out and the Scheme will not be able to sell such lent-out securities until they are returned. There is also a possibility of opportunity loss.

ii) Risks associated with short selling: Scheme may enter into short selling transactions, subject to SEBI and RBI regulations in the matter. This will be done if the fund management team is of the view that there exists an opportunity to make trading gains. Calls for short selling will be taken after considering the liquidity, price movement & volatility of the security by the fund management team. There can be a loss in such a transaction if the price of the security goes up instead of falling down.

7. Risk Factors Associated with Investments in REITs and InvITs:

- Market Risk:** REITs and InvITs are volatile and prone to price fluctuations on a daily basis owing to market movements. Investors may note that AMC/Fund Manager's investment decisions may not always be profitable, as actual market

movements may be at variance with the anticipated trends. The NAV of the Scheme is vulnerable to movements in the prices of securities invested by the scheme, due to various market related factors like changes in the general market conditions, factors and forces affecting capital market, level of interest rates, trading volumes, settlement periods and transfer procedures.

• **Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.

• **Reinvestment Risk:** Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or dividend pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns. The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis.

8. Risk factors associated with Repo transactions in Corporate Debt:

i) **Lending transactions:** The scheme may be exposed to counter party risk in case of repo lending transactions in the event of the counterparty failing to honour the repurchase agreement. However, in repo lending transactions, the collateral may be sold, and a loss is realized only if the sale price is less than the repo amount. The risk may be further mitigated through over-collateralization (the value of the collateral being more than the repo amount). Further, the liquidation of underlying securities in case of counterparty default would depend on liquidity of the securities and market conditions at that time. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which includes their credit profile evaluation and over-collateralization to cushion the impact of market risk on sale of underlying security.

ii) **Borrowing transactions:** In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin). This risk is normally mitigated by better cash flow planning to take care of such repayments. Further, there is also a Credit Risk that the Counterparty may fail to return the security or Interest received on the due date. It is endeavoured to mitigate the risk by following an appropriate counterparty selection process, which includes their credit profile evaluation.

9. Risk Factors Associated with Investments in Foreign Securities

- Within the investment objective of the Scheme, the Scheme will be investing in the overseas markets including Exchange Traded funds which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, restrictions on repatriation of capital due to exchange controls and the political environment. Further the repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances. The Scheme's NAV may also be affected by a fluctuation in the general and specific level of interest rates internationally, or the change in the credit profiles of the issuer.
- The liquidity of this scheme will be affected if there is a non-business day of the underlying fund/s. This scheme shall have non-business days on all the days on which the underlying scheme has non-business days.
- In case of unforeseen events like system breakdown, natural calamities etc. delaying the NAV of the underlying scheme, the NAV of this scheme may also be delayed, and the AMC shall suitably intimate AMFI / SEBI in this regard.
- In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilisation of overseas financial assets and the prevalent tax laws of the respective jurisdictions for the execution of trades or otherwise.
- Risks arising from exhaustion of overseas limits as per applicable SEBI and RBI circulars: The schemes capability to invest in overseas securities is subject to the limits assigned by the SEBI & RBI from time to time basis. In case of exhaustion of the limits to invest in overseas securities is exhausted either at an individual Mutual Fund level or at Industry level or otherwise as restricted by SEBI or RBI, the scheme may not be able to allocate and invest in overseas securities and the AMC will suitably reallocate the proceeds to other investments as permissible under the asset allocation specified in the scheme document.

10. Risks associated with writing covered call options for equity shares

- Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be

unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

- The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
- The total gross exposure related to option premium paid and received must not exceed the regulatory limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.

11. Risks Associated with segregated portfolio

- a) Unit holders holding units of Segregated Portfolio may not be able to liquidate their holdings till the recovery of money from the issuer.
- b) Portfolio comprising of Segregated Portfolio may not realise any value or may have to be written down. Listing of units of Segregated Portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further the trading price of units on the stock market may be significantly lower than the prevailing NAV. For further details please refer SAI.

12. Investment in Securitized Debt:

A securitization transaction involves true sale of cash generating assets & receivables by the originator (a bank, non-banking finance company, housing finance company, or a manufacturing/service company) to a Special Purpose Vehicle (SPV), typically set up in the form of a trust. Investors are issued rated Pass-Through Certificates (PTCs), the proceeds of which are paid as consideration to the originator. In this manner, the originator, by transferring his cash generating asset(s) to an SPV, receives consideration from investors upfront. Investors get paid from the periodic distribution of cash generated by the underlying asset(s). Typically, the transaction is provided with some sort of credit enhancement (as stipulated by the rating agency for a target rating). This mechanism attempts to protect investors against potential delay in cash flows from assets as well as potential defaults by trenching risks by structuring cash flows in different forms. Generally available asset classes for securitization in India are:

- Commercial vehicles
- Auto and two-wheeler pools
- Mortgage pools (residential housing loans)

- Personal loans
- Corporate loans/receivables
- Commercial Mortgage-backed securities

Investment / Risk Mitigation Strategy:

1. Risk profile of securitized debt vis-à-vis risk appetite of the Scheme(s):

The risk profile of securitized debt is generally slightly better than the risk profile of other debt securities at the same level of credit rating due to presence of credit-enhancing mechanism. Moreover, PTCs generally offer additional income (spread) over a debt security of similar rating and maturity, which enables the scheme to optimize its income without taking any additional credit risk. Securitized debt is generally less liquid, however, investment in securitized debt is made to maintain a diversified portfolio of debt securities that optimizes return without increasing the overall risk profile of the Scheme(s).

2. Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt, etc:

The originator is an entity (like banks, non-banking finance companies, corporates etc), which has initially provided the loan & is also generally responsible for servicing the loans. The schemes will invest in securitised debt of originators with at least investment grade credit rating and established track record. A detailed evaluation of originator is done before the investment is made in securitised debt of any originator on various parameters given below:

Track record:

The investment in securitized debt is done based on the evaluation of the origination & underwriting process and capabilities of the originator, overview of corporate structure, group to which they belong, experience of the company in the business & longevity, processes, financial condition of the company, credit rating, past performance of similar pools by the originator, etc.

Willingness to pay through credit enhancement facilities etc:

Credit enhancement is provided by the originator, as indicated by rating agencies, so as to adequately cover delinquencies and defaults and acts as a risk mitigation measure. The size of the credit enhancement as indicated by the rating agency depends on the originator's track record, past delinquencies, pattern of the portfolio & characteristics of the pool vis-a-vis of the portfolio, nature of the asset class.

Ability to pay:

The quality of the origination impacts the performance of the underlying asset & thus originators with strong systems and processes in place can eliminate poor quality assets. A robust risk management system of the originator and availability of MIS reports on timely basis, results in creation of strong asset portfolio.

	<p>Business Risk Assessment:</p> <p>The business risk assessment of originator / underlying borrower also includes assessment wherein following factors are also considered:</p> <ul style="list-style-type: none"> • Outlook for the economy (domestic and global) • Outlook for the industry • Company specific factors <p>In addition, a detailed review and assessment of rating rationale is done along with interactions with the company as well as the rating agency. All investment in securitized debt is done after taking into account, the Critical Evaluation Parameters (for pool loan and single loan securitization transactions) regarding the originator / underlying issuer as mentioned below:</p> <ul style="list-style-type: none"> • Default track record/ frequent alteration of redemption conditions / covenants • High leverage ratios of the ultimate borrower (for single sell downs) - both on a standalone basis as well on a consolidated level/ group level • Higher proportion of reschedulement of underlying assets of the pool or loan, as the case may be • Higher proportion of overdue assets of the pool or the underlying loan, as the case may be • Poor reputation in market • Insufficient track record of servicing of the pool or the loan, as the case may be. <p>3. Risk mitigation strategies for investments with each kind of originator:</p> <p>Investments are based on assessment of following parameters, so as to mitigate risk associated with such investment:</p> <ol style="list-style-type: none"> a. Credit quality, size and reach of the originator b. Nature of receivables/asset category i.e. cars, construction equipment, commercial vehicles, personal loans etc. c. Collection process, infrastructure and follow-up mechanism d. Quality of MIS e. Credit cum liquidity enhancement f. Credit appraisal norms of originator g. Asset Quality - portfolio delinquency levels h. Past performance of rated pools i. Pool Characteristics - seasoning, Loan-to-value ratios, geographic diversity etc. <p>4. The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments: Diversification of underlying assets is achieved through a) prudent mix of asset categories - i.e. cars (new, used), commercial vehicles, construction equipment, unsecured loans to individuals or small & medium enterprises b) total number of contracts in a pool c) average ticket size of loans and d) geographical distribution. Risk mitigation measures for less diversified investments in pools is accomplished through the size of credit enhancement, seasoning or loan to value ratios.</p>

Notes:

- In case of securitised debt with underlying being single loan, the investment limit applicable to the underlying borrower is considered.
- Other investment will be decided on a case to case basis. In case of asset backed pools (ABS), evaluation of the pool assets is done considering the following factors: (Refer the table above which illustrates the averages of parameters considered while selecting the pool)
 - Size of the loan
 - Average original maturity of the pool
 - Loan to Value Ratio
 - Average seasoning of the pool
 - Default rate distribution
 - Geographical Distribution
 - Credit enhancement facility
 - Liquid facility
 - Structure of the pool

1. Minimum retention period of the debt by originator prior to securitisation
The illustrative average seasoning of the debt by originator prior to securitisation is

given above in table (Refer Point 4). Minimum retention period of the debt by originator prior to securitisation in the case of asset pools is in the form of seasoning of loans to various asset classes (cars, commercial vehicles, etc.) and generally varies from one month to six months depending on the nature of asset.

2. Minimum retention percentage by originator of debts to be securitised.

While minimum retention percentage by originator is not prescribed, any amount retained by the originator through subordination is viewed positively at the time of making investment and generally varies from 5% to 10%.

3. The mechanism to tackle conflict of interest when the mutual fund invests in securitised debt of an originator and the originator in turn makes investments in that particular scheme of the fund

All proposals for investment in securitised debt are evaluated by the credit analyst based on several parameters such as nature of underlying asset category, pool characteristics, asset quality, credit rating of the securitisation transaction, and credit cum liquidity enhancement available. Investment in securitised debt in any scheme is made by the respective fund manager in line with the investment objective of that scheme.

4. The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitised debt (in general)

Investment in securitised debt is monitored regularly with regards to its performance on various parameters such as collection efficiency, delinquencies, prepayments and utilization of credit enhancement. Information on these parameters is available through monthly reports from Pool Trustees and through information disseminated by the rating agencies. Monthly performance report is released by the credit analyst to the fund management team and the fund management team periodically reviews the same

13. Investments in the Schemes of Mutual Fund

The Scheme may invest in schemes managed by the AMC or in the schemes of any other Mutual Fund, provided it is in conformity with the investment objectives of the Scheme and in terms of the prevailing SEBI Regulations. As per the SEBI Regulations, no Investment Management fees will be charged for such investments and the aggregate inter scheme investment made by all schemes in the schemes of the Mutual Fund or in the schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

Derivative Instrument like Interest Rate Swaps, Forward Rate Agreement and such other derivative instruments as may be permitted under the Regulations.

Any other domestic equity and equity related instruments / debt securities as permitted by RBI/SEBI/ such other Regulatory Authority from time to time.

The above-mentioned securities could be listed, secured, unsecured, rated or

unrated and may be acquired through Primary, secondary market offerings, private placements, rights offer etc. Further, investments in debentures, bonds and other fixed income securities will usually be in instruments, which have been assigned investment grade ratings by an approved rating agency. In cases where the debt instrument is unrated, specific approval from the Board of the Asset Management Company and the Board of Trustees shall be obtained. However, the same shall be subject to limitations as contained in clause 1 and 1A, of Schedule VII to SEBI (Mutual Funds) Regulations, 1996.

14. Risks Associated with fixed income Derivatives:

The Scheme may invest in fixed income derivatives for swap of fixed rate debt instruments swapped to floating rate or floating rate debt instruments swapped to fixed rate, hedging and portfolio rebalancing or any other purposes as may be permitted under regulatory guidelines. The Scheme may use derivative instruments like Interest Rate Swaps, Forward Rate Agreements or other derivative as may be permitted by SEBI / RBI / such other Regulatory Authority from time to time. The use of derivatives may expose the Scheme to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase Scheme volatility. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives require the maintenance of adequate controls to monitor the transactions and the embedded market risks that they add to the portfolio. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives. Identification and execution of the strategies to be pursued involve uncertainty and decision of the Investment Manager may not always be profitable. No assurance can be given that the Investment Manager will be able to identify or execute such strategies. Other risks in using derivatives include but are not limited to:

- a) Counterparty Risk - this occurs when a counterparty fails to abide by its contractual obligations and therefore, the Schemes are compelled to negotiate with another counter party, at the then prevailing (possibly unfavourable) market price. For exchange traded derivatives, the risk is mitigated as the exchange provides the guaranteed settlement but one takes the performance risk on the exchange.

b) Market Liquidity risk – this occurs where the derivatives cannot be transacted due to limited trading volumes and/or the transaction is completed with a severe price impact. c) Model Risk - the risk of mispricing or improper valuation of derivatives d) Basis Risk arises due to a difference in the price movement of the derivative vis-à-vis that of the security being hedged.

15. Risk associated with investing in underlying ETFs:

- i. In addition to the recurring expenses of the Scheme, the Unit Holders shall also bear the applicable expenses of the Underlying ETF. Therefore, the returns that the Unit Holder of the Scheme may receive may be impacted or may, at times, be lower than the returns that a Unit Holder, who is directly investing in the same Underlying ETF, could obtain.
- ii. **Index-Related Risk.** There is no guarantee that the underlying ETF's investment results will have a high degree of correlation to those of the Underlying Index or that the underlying ETF will achieve its investment objective. Market disruptions and regulatory restrictions could have an adverse effect on the underlying ETF's ability to adjust its exposure to the required levels in order to track the Underlying Index. Errors in index data, index computations or the construction of the Underlying Index in accordance with its methodology may occur from time to time and may not be identified and corrected by the Index Provider for a period of time or at all, which may have an adverse impact on the underlying ETF. Unusual market conditions may cause the Index Provider to postpone a scheduled rebalance, which could cause the Underlying Index to vary from its normal or expected composition
- iii. **Passive Investment Risk.** The underlying ETF is not actively managed, and the fund manager generally does not attempt to take defensive positions under any market conditions, including declining markets
- iv. **Tracking Error Risk.** The underlying ETF may be subject to tracking error, which is the divergence of its performance from that of the Underlying Index. Tracking error may occur because of differences between the securities and other instruments held in the ETF portfolio and those included in the Underlying Index, pricing differences (including, as applicable, differences between a security's price at the local market close and the ETF's valuation of a security at the time of calculation of the Fund's NAV), transaction costs incurred by the ETF, the holding of uninvested cash, differences in timing of the accrual of or the valuation of dividends or interest, the requirements to maintain pass through tax treatment, portfolio transactions carried out to minimize the distribution of capital gains to shareholders, acceptance of custom baskets, changes to the Underlying Index or the costs to the ETF of complying with various new or existing regulatory requirements. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the ETF incurs fees and expenses, while

the Underlying Index does not.

C. RISK MANAGEMENT STRATEGIES

The Fund has designed a detailed process to identify, measure, monitor and manage the portfolio risk. The aim is not to eliminate the risk completely but to have a structured mechanism towards risk management thereby maximizing potential opportunities and minimize the adverse effects of risk. Few of the key risks identified are:

Risk associated with Equity and equity related instruments of underlying scheme:

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
Market Risk The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.	Market risk is a risk which is inherent to an equity scheme. Understand the working of the markets and respond effectively to market movements. The scheme may use derivatives to limit this risk.
Concentration risk Risk arising due to over exposure in few securities	Investing across multiple companies and sectors adhering to the cap as per regulatory limit. Flexibility to invest in other companies / sectors in case of over exposure.
Derivatives Risk Various inherent risks arising because of investing in derivatives.	The investment managers will invest only in exchange traded derivatives (settlement guaranteed) and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents.
Liquidity risk Risk arising due to inefficient Asset	Control portfolio liquidity at portfolio construction stage. Having optimum

	<p>Liability Management, resulting in high impact costs</p>	<p>mix of cash & cash equivalents along with the money market instruments in the portfolio as defined in asset allocations. The fund will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.</p>	
--	---	---	--

Risk associated with Debt and money market instruments:

Risk & Description specific to the Scheme	Risk mitigants / Management Strategy
<p>Market Risk Changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.</p>	<p>Fund Managers will periodically monitor the portfolio structure with respect to the existing interest rate scenario. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets to the extent permissible.</p>
<p>Concentration risk Risk arising due to over exposure in few securities</p>	<p>Investing across a spectrum of issuers and keeping flexibility to invest across tenors.</p>
<p>Liquidity risk The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.</p>	<p>The fund will endeavour to minimise liquidity risk by investing in securities having a liquid market. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.</p>
<p>Credit Risk The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default.</p>	<p>Detailed evaluation of issuers will be done. Investments will be done in high credit quality securities. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.</p>
<p>Interest rate risk</p>	<p>Control the portfolio duration and</p>

	<p>Price volatility due to movement in interest rates</p> <p>Reinvestment Risk The rate at which interim cash flows can be reinvested may be lower than that originally assumed.</p>	<p>periodically evaluate the portfolio structure with respect to existing interest rate scenario</p> <p>Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value. Exposure to Debt and Money market instruments will be in the form of TREPs and other liquid assets.</p>
Risk associated with the scheme:		
	<p>The Scheme may participate as a lender in the SLB market and lend securities held in the portfolio for earning fees from such lending to enhance revenue of the Scheme. The key risk to the Scheme is creation of temporary illiquidity due to the inability to sell such lent securities, till the time such securities are returned on the contractual settlement date or on exercise of early recall.</p>	<p>The AMC will ensure adherence to the limits assigned for stock lending and will ensure that the liquidity Risk is managed actively within the portfolio liquidity limits by maintaining proper asset-liability match to ensure payout of the obligations. Also to ensure that the counterparty risk is limited the AMC will participate in stock lending only through exchange mechanism where the settlement is guaranteed.</p>
		For further details please refer SAI.
Plans/Options	<p>The Scheme will offer two Plans:</p> <ol style="list-style-type: none"> 1. Regular Plan; and 2. Direct Plan <p>The Direct Plan will be offered only for investors who purchase /subscribe Units of the Scheme directly with the Fund and will not be available for investors who route their investments through a Distributor. In case neither Distributor's Code nor "Direct" is indicated in the application form, the same will be treated as "Direct Plan" application.</p> <p>The portfolio of the Scheme under both these Plans will be common.</p> <p>Each Plan will offer:</p> <ol style="list-style-type: none"> (i) Growth Option and (ii) Income Distribution cum Capital withdrawal (IDCW) Option <p>IDCW Option shall have Reinvestment, Payout & Transfer Facility.</p>

IDCW Policy (earlier known as Dividend Policy)	<p>IDCW Distribution Procedure:</p> <p>SEBI Circular lays down the procedure for Declaration of IDCW which clearly says that quantum of IDCW and record date shall be fixed by the Board of Trustees and AMC shall issue a notice to the public communicating the decision about IDCW including the record date, within one calendar day of the decision made by the Board of Trustees in their meeting. Record date shall be the date that will be considered for the purpose of determining the eligibility of investors whose name appears on the register of Unit holders. Record date shall be five calendar days from the issue of notice. The Trusteeship Company reserves the right to declare IDCW on a regular basis. The Fund does not guarantee or assure declaration or payment of IDCW. Although the Trustees have intention to declare IDCW under IDCW Option, such declaration of IDCW if any, is subject to Scheme's performance & the availability & adequacy of distributable surplus in the Scheme at the time of declaration of such IDCW.</p> <p>Investors should note that, when the Mutual Fund declares an IDCW under the Scheme, the dividend payments shall be dispatched within seven working days of the record date. The requirement of giving notice & the above laid procedure shall not be compulsory for Scheme/plan/option having frequency of IDCW distribution from daily up to monthly IDCW.</p> <p>Further, investors are requested to note that the amounts can be distributed out of the investor's capital (Equilization Reserve), which is part of sales price that represents realized gains.</p> <p>• Effect of IDCWs:</p> <p>When IDCWs are declared and paid under the Scheme, the net assets attributable to Unit holders in the IDCW Option will stand reduced by the IDCW amount subject to TDS and statutory levy if any. The NAV of the Unit holders in the Growth Option will remain unaffected by the payment of IDCW. Even though the asset portfolio will be un-segregated, the NAVs of the Growth Option and IDCW Option will be distinctly different after declaration of the first IDCW to the extent of distributed income, tax and statutory levy paid thereon, where applicable, and expenses relating to the distribution of IDCWs.</p> <p>• Mode of Payment of IDCWs:</p> <p>The Scheme proposes to pay IDCW by Direct Credit or through RTGS or NEFT or any other EFT means. RBI offers the facility of EFT for facilitating better customer service by direct credit of IDCW amount to a Unit holder's bank account through</p>

	<p>electronic credit which avoids loss of IDCW in transit or fraudulent encashment. The Mutual Fund will endeavour to offer this facility for payment of IDCW/repurchase proceeds to the Unit holders residing in any of the cities where such a Bank facility is available.</p> <p>The Fund is arranging with selected bankers to enable direct credits into the bank accounts of the investors at these banks. If an investor has an account with a bank with which the Fund will tie up for direct credit, the IDCW amount will be credited directly to the bank account, under intimation to the Unit holder by email/SMS/post. The Mutual Fund, on a best effort basis, and after scrutinising the names of the banks where Unit holders have their accounts, will enable direct credit/RTGS/NEFT/ to the Unit holders' bank accounts.</p> <p>While the preferred mode of payment is through EFT route, the AMC is at the sole discretion to pay IDCW by any other means (including at par cheques and demand drafts, where the EFT facility is not available in a particular city or Bank or as the Trusteeship Company or the AMC deems fit in the interest of investors.)</p> <p>All the IDCW payments shall be in accordance and compliance with SEBI Regulations, as amended from time to time.</p> <p>If Unit holders have opted for IDCW Payout Option, if the IDCW amount payable to such Unit holders (net of tax deducted at source, wherever applicable) is less than or equal to Rs. 100, following treatment shall be:</p> <ol style="list-style-type: none"> Where the option to payout IDCW is available in electronic mode: The IDCW shall be paid to the Unit holders. However, if the payment through electronic mode is unsuccessful, the AMC shall issue dividend warrant for such amount; and <p>Where the option to payout IDCW is not available in electronic mode: The IDCW shall be mandatorily reinvested in the respective Scheme/Plan by issuing additional Units at the applicable ex-dividend NAV.</p>

Expenses of the Scheme	Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time.
(i) Load Structure	

For the current applicable structure, please refer to the website of the AMC www.edelweissmf.com or may call at our toll free number 1800 425 0090 (MTNL/BSNL) and non-toll free number +91 40 23001181 for others and investors outside India or your distributor.

Applicable Load Structure:

Type of Load	Load chargeable (as % of NAV)
Exit Load**	<ul style="list-style-type: none"> • If the units are redeemed /switched out on or before 90 days from the date of allotment - 1% of the applicable NAV. • If the units are redeemed /switched out after 90 days from the date of allotment - NIL

Also, Units allotted on reinvestment of IDCWs shall not be subject to load.

**The entire exit load (net of Goods and Service tax), charged, if any, shall be credited to the Scheme.

The upfront commission shall be paid by the investor directly to the ARN Holder based on the investor's assessment of various factors including service rendered by the ARN Holder.

AMC reserves the right to revise the load structure from time to time. Such changes will become effective prospectively from the date such changes are incorporated.

Please Note that:

- Exit Load will be applicable for inter Scheme switches as well as special products under the Scheme such as switch-outs/systematic transfer between the schemes of Edelweiss Mutual Fund.
- No exit load shall be levied in case of switch of units from Edelweiss Financial Service Fund- Direct Plan to Edelweiss Financial Services Fund- Regular Plan. However, after the switch, exit load under the Scheme prevailing on the date of switch shall apply for subsequent redemptions/switch out from Edelweiss Financial Services Fund.
- Bonus Units and Units issued on reinvestment of IDCWs shall not be subject to exit load.
- The normal load structure will be applicable in case of Special Products (SIP/STP/SWP) unless otherwise specified.
- The AMC shall ensure the repurchase price will not be lower than 95% of the Applicable NAV.
- For any change in load structure, the AMC will issue an addendum and display it on the website/Investor Service Centres.

The investors are requested to check the prevailing load structure of the Scheme,

	<p>before investing.</p> <p>Changing the Load Structure:</p> <p>Under the Scheme, the AMC, in consultation with the Trustee, reserves the right to change the load structure if it so deems fit in the interest of investors & for the smooth and efficient functioning of the Scheme. Any imposition or enhancement in the load shall be applicable on prospective investments only. At the time of changing the load structure, the AMC shall issue a public notice in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. Unit Holders / Prospective investors will be informed of the changed / prevailing Load structures through various means of communication such as public notice and / or display at ISCs / Distributors' offices, on Account Statements, acknowledgements, investor newsletters etc. The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and Key Information Memorandum already in stock. The introduction of the exit load along with the details may also be disclosed in the Account Statement issued after the introduction of such load.</p> <p>The AMC has estimated that upto 2.25% of the daily average net assets of the scheme will be charged to the scheme as expenses.</p> <p>ii. Recurring Expenses (% of the Average Daily Net Assets)</p> <p>Actual expense for the previous financial year: Not Applicable as the Scheme is a new scheme.</p> <p>Details of the actual TER charged to the scheme after allotment and any change in the current expense ratios would be available on the website of the Mutual Fund on https://www.edelweissmf.com/statutory/total-expense-ratio-of-mutual-fund-scheme and the same will be communicated to the investor via SMS / e-mail 3 working days prior to the effective date of change.</p> <p>Tax treatment for the Investors (Unitholders)</p> <p>Investors will be advised to refer to the details in the Statement of Additional Information and also independently refer to his/her tax advisor.</p> <p>Daily Net Asset Value (NAV) Publication</p> <p>The AMC will calculate and disclose the first NAV within the timelines stipulated under the Regulations from the closure of the New Fund Offer Period. Subsequently, considering that the Scheme shall be investing in international markets, there would be time zone differences between transactions by investors and investments in/sale of securities. As a result, the AMC shall update the NAV by 10:00 a.m. on the next business day on the website of Association of Mutual Funds in India (AMFI) (www.amfiindia.com) and the AMC website www.edelweissmf.com.</p>

INSTRUCTIONS TO INVESTORS FOR FILLING UP THE COMMON APPLICATION FORM

I. GENERAL INSTRUCTIONS

1. Please read the Key Information Memorandum, Scheme Information Document (SID) and Statement of Additional Information (SAI) containing the terms of offer carefully before investing. In the SID your attention is particularly drawn to the risk factors of investing in the Scheme and also the sections "Who can't invest" and "Important note on Anti Money Laundering, KYC & investor protection".
2. Applications from residents of Canada will not be accepted.
3. All applicants are deemed to have accepted the terms subject to which the offer is being made and bind themselves to the terms upon signing the Application Form and tendering the payment.
4. Application Form should be filled legibly in ENGLISH in BLOCK letters using Black or Dark Blue ink. Incomplete application forms are liable to be rejected. Please refer to the checklist at the end of the application form to ensure that the requisite details and documents have been provided in order to avoid unnecessary delays and / or rejection of your application.
5. Please strike out any section that is not applicable. Correction/Cancellation on any of the mandatory information should be countersigned by the investor.
6. Aadhar can be accepted as a valid document for proof of address or proof of identity of investors, provided the investor redact or blackout his Aadhar number while submitting the applications for investments.

II. APPLICANT INFORMATION

1. Name should be given in full without any abbreviations as per PAN Card only for the the First, Second, Third Holder(s), POA, Nominee and Guardian. Preferably write exactly as it appears in your Bank Account or as it appears in the incorporation document as the case may be.
2. Name, Date of birth of the Minor, Name of Parent/Legal Guardian and relationship with minor is mandatory for investment on behalf of Minor applicant.
3. Date of Birth/Date of Incorporation and PAN No is mandatory for the First, Second, Third Holder(s), POA, Nominee and Guardian.

Subsequent Account Statements/Newsletters / Annual Reports / Other statutory information (as permitted under SEBI (Mutual Funds) Regulations, 1996) will be sent to each Unit holder by e-mail. Investors are requested to provide their e-mail address for the same and this will also help us resolve your queries more promptly. Unitholders who have provided email id will be sent all communications/ reports as mentioned above by email only and no physical communications will be sent. Any change in the e-mail address should be communicated to nearest designated Investor Services. EMF/Registrars are not responsible for e-mail not reaching the investor and for all consequences thereof. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the AMC will arrange for the same through physical mode on receipt of request for the same. It is deemed that the Unitholder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

IV. BANK ACCOUNT DETAILS

It is mandatory to attach cancelled original cheque / self certified copy of blank cheque / self certified Bank Statement / first page of the Bank Pass book (bearing account number and first unit holder name on the face of the cheque/ Bank Pass Book/ Bank Statement) is required as an incremental additional document in case of: a. Registration of the investor's Bank Mandate at the time of investment b. Subsequent change in the investor's Bank Mandate.

SEBI Regulations have made it mandatory for investors to mention the Bank Name & address of branch and bank Account Number in their Investment application form in order to protect the interest of investors from fraudulent encashment of cheques. For registering multiple bank account please fill separate Form for Registering/ Adding Multiple Bank Accounts. Individuals / HUF can register upto 5 bank accounts and Non Individuals upto 10 bank accounts. For further information please refer SAI.

V. PAN DETAILS

It is mandatory for all investors to quote their Permanent Account Number (PAN) (except MICRO SIP Investments) and submit certified copy of the PAN card issued by the Income

Tax Department, irrespective of the amount of investment, while making an application for Purchase of Units. In case of joint holding, PAN details of all holders should be submitted. In case the application is on behalf of minor, PAN details of the Guardian must be submitted. Investors residing in the state of Sikkim are exempt from the mandatory requirement of PAN proof submission; however sufficient documentary evidence shall have to be submitted for verifying that they are residents of the State of Sikkim. Applications without the aforesaid details are liable to be rejected without any reference to the investors. Investment through Systematic Investment Plans (SIPs) upto ₹50,000/- (aggregate of installments in a rolling 12 months period or in a financial year i.e. April – March) per year per investor shall be exempt from the requirement of PAN. In case of PAN Exempt cases PAN Exempt KYC Reference Number (PEKRN) is Mandatory.

VI. INVESTMENT DETAILS

Investors should indicate the Option for which the application is made. In case Investors wish to opt for both the Options, separate Application form will have to be filled. In case applications are received where option/ sub-option for investment is not selected the default option/ Sub option as prescribed in SID will be applicable. Investors have the option to sweep their IDCW in any other Open-ended Scheme of the Fund at the applicable NAV based prices, irrespective of minimum application amount and eligibility requirements of the scheme in which such IDCW is being invested. If the scheme name on the application form and on the payment instrument are different, the application will be processed and units allotted at applicable NAV of the scheme mentioned in the application / transaction slip duly signed by investor(s).

VII. MODE OF PAYMENT

1. As per AMFI best practice guidelines on 'Risk mitigation process against third party cheques in mutual fund subscriptions', Edelweiss Mutual Fund shall not accept applications for subscriptions with third party payment instruments with effect from November 15, 2010. For further information please refer SAI.
2. Investors may make payment by cheque payable locally in the city where the application form is submitted at AMC/Kfintech ISC's or electronic mode such as RTGS/NEFT directly to Mutual Fund Collection account
3. The cheque should be drawn on any bank which is situated at and is a member/sub member of the bankers clearing house. Cheque drawn on the bank not participating in the clearing house will not be accepted.
4. Payment through Stock Invest, outstation cheques and cash will not be accepted.
5. The cheque should be drawn in favor of "**Edelweiss Financial Services Fund**" and should be crossed 'Account Payee Only'.
6. Returned cheques will not be presented again for collection and the accompanying application will be rejected.
7. Single cheque for investments in multiple Schemes and multiple cheques for investments in Single Scheme will not be accepted.
8. If the dividend amount under IDCW payout option is less than or equal to ₹ 250/-, the same will be reinvested. (Except in case of Edelweiss ELSS Tax saver Fund).
9. In case of investment through electronic mode (RTGS/ Transfer letter), you are requested to contact the nearest AMC/ Kfintech ISC for the Bank Account Number to which the purchase/additional purchase amount is to be credited.

10. NRI / FIIs'

Repatriation basis: - Payments by NRIs/FIIs may be made by way of cheques drawn on non-resident external accounts payable at par and payable at the cities where the Investor Service Centers are located.

Non-Repatriation basis:- NRIs investing on a non repatriable basis may do so by issuing cheques drawn on Non-Resident Ordinary (NRO) account payable at the cities where the Investor Service Centers are located.

11. In case of payment through electronic mode (RTGS/NEFT or Transfer Letter), need to provide the bank acknowledgement copy along with purchase application.

VIII. PAYMENT OF REDEMPTION /IDCW

Investors are requested to provide the following details along with the mandatory requirement of bank account details (bank, branch address, account type and account no.) in the application form for electronic fund transfer (EFT) of IDCW / redemption amount to the unit holders bank account. AMC will automatically extend this facility to all unit holders in case the bank account as communicated by the unit holder is with any of the bank providing EFT facility.

- a. The 11 digit IFSC (Indian Financial System) Code b. The 9-digit MICR (Magnetic Ink Character Recognition) number appearing next to the cheque number in the cheque leaf (Please attach copy of the cancelled cheque for verification) Based on the above information AMC will enable secure transfer of your redemption and dividend payouts via the various electronic mode of transfers (RTGS / NEFT / Direct Credit mode that are available in the banking system).

This facility of EFT is safe and fast and eliminates the potential risk of loss of instruments in transit through physical mode. The Mutual Fund, however, reserves the right to issue a cheque / demand draft to unit holders residing at locations where this facility is not available. "If the remittance is delayed or not affected for reasons of incomplete or incorrect information, AMC cannot be held responsible". For validation of IFSC/MICR code, investor to attach the cancelled cheque/copy of cheque (PSU banks account holders to provide the front page of pass book along with cheque copy). If these documents are not provided the fund will not be responsible consequent delay in receipt of payment. Fund is also not responsible for bankers delay.

IX. NOMINATION DETAILS

- a. Nomination or declaration to Opt-out of nomination is mandatory for all the folios/ accounts, where the mode of holding is single or the folio/account is opened by an individual without any joint holding. New subscriptions received from individuals without nomination will be rejected.
- b. The nomination can be made only by individuals holding units on their own behalf singly or jointly. Non-Individuals including Society, Trust, Body Corporate, Partnership Firm, Karta of Hindu Undivided Family, holder of Power of Attorney cannot nominate. If the units are held jointly, all joint holders must sign against the nomination.
- c. Nomination is not allowed for folios/accounts opened in the name of minors.
- d. A minor can be nominated against a folio/account. In such case, the Date of Birth of the minor nominee is mandatory, the guardian details such as name and address can be optional. The Guardian of the minor nominee can be the investor and/or any other holder registered in the folio/account or a person other than the holder of that folio/ account. Nomination can also be in favour of the Central Govt, State Govt, a local authority, any person designated by virtue of his office or a religious charitable trust.
- e. The Nominee cannot be a trust (other than a religious or charitable trust), society, body corporate, partnership firm, Karta of HUF or a Power of Attorney holder. A non-resident Indian can be a Nominee subject to the exchange controls in force, from time to time.
- f. Nomination stands rescinded upon transfer of units or cancellation of nomination.
- g. The nomination facility extended under the Scheme is subject to existing laws. The AMC shall, subject to production of such evidence which in their opinion is sufficient, proceed to effect the payment / transfer to the Nominee(s) in the event of demise of the unit holder. Transfer of units / payment to the nominee(s) of the sums shall discharge Edelweiss Mutual Fund / Edelweiss AMC of all liability towards the estate

INSTRUCTIONS TO INVESTORS FOR FILLING UP THE COMMON APPLICATION FORM

of the deceased unit holder and his / her / their successors / legal heirs. Transmission of units in favour of the Nominee/s, will be as the below mentioned scenario in case the folio is registered with one and/or more joint holder/s:

Event	Transmission of Account / Folio to
Demise of one or more joint holder(s)	Surviving holder(s) through name deletion. The surviving holder(s) shall inherit the assets as owners.
Demise of all joint holders simultaneously – having nominee	Nominee
Demise of all joint holders simultaneously – not having nominee	Legal heir(s) of the youngest holder

- h. Cancellation of nomination can only be made only by those individuals who hold units on their own behalf singly or jointly and who made the original nomination. (Please note that if one of the Joint Holders die, the other surviving holders cannot cancel or change the nomination.)
- i. Nomination shall be registered only if the form is filled in completely.
- j. Nomination will be updated at folio/account level and not at scheme level.
- k. Nomination can be made for maximum of 3 nominees. In case of multiple nominees, the percentage of allocation / share in favour of each of the nominees should be indicated against their name and such allocation / share should be in whole numbers without any decimals making a total of 100 percent. In the event of unit holders not indicating the percentage of allocation / share for each of the nominees, the Mutual Fund / the AMC, by invoking default option shall settle the claim equally amongst all the nominees.
- l. The investor(s) who nominate is / are deemed to have read and understood the provisions of Regulation 29 A of SEBI (Mutual Funds) Regulations, 1996, read with SEBI circular dated January 10, 2025 and February 28, 2025 and / or any amendments thereto or any rules / regulations framed in pursuance thereof governing the nomination facility and agree/s to be bound by the same.
- m. Fresh nominee registrations will override older nominations under the folio.

X. PREVENTION OF MONEY LAUNDERING AND KNOW YOUR CUSTOMER (KYC)

According to SEBI Guidelines under 'The Prevention of Money Laundering Act, 2002', Mutual Funds are required to follow enhanced know your customer (KYC) norms. Further, SEBI has also notified SEBI (KYC Registration Agency) Regulations, 2011 on December 23, 2011 with a view to bring uniformity in KYC requirements for the securities market and to develop a mechanism for centralization of the KYC records. Accordingly the following procedures shall apply:

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries viz. Mutual Funds, Portfolio Managers, Depository Participants, Stock Brokers, Venture Capital Funds, Collective Investment Schemes, etc. New Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including IPV with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are also available on our website www.edelweissmf.com.
- The Fund shall perform the initial KYC of its new investors and may undertake enhanced KYC measures commensurate with the risk profile of its investors in line with the aforementioned circulars/circulars issued by SEBI in this regard from time to time. The Fund shall upload the details of the investors on the system of the KYC Registration Agency ("KRA"). The Registrar & Transfer Agent of the Fund viz. KFin Technologies Private Limited ("Kfintech") may also undertake the KYC of the investors on behalf of the Fund. On receipt of the KYC documents from the Fund, the KRA shall send a letter to the investor within SEBI stipulated timelines, confirming the details thereof.
- Once the investor has done KYC with a SEBI registered intermediary, the investor need not undergo the same process again with another intermediary but can submit the letter/acknowledgment issued by the KRA.
- It is mandatory for intermediaries including mutual funds to carry out IPV of its new investors. The IPV carried out by any SEBI registered intermediary can be relied upon by the Fund. Edelweiss Asset Management Limited and NISM/AMFI certified distributors who are Know Your Distributor (KYD) compliant are authorized to undertake the IPV for mutual fund investors. Further, in case of any applications received directly (i.e. without being routed through the distributors) from the investors, the Fund may rely upon the IPV (on the KYC Application Form) performed by the scheduled commercial banks.
- Existing KYC compliant investors of the Fund can continue to invest as per the current practice. However, existing investors are also urged to comply with the new KYC requirements including IPV as mandated by SEBI.
- Application Form not accompanied by KYC Application Form or letter / acknowledgment issued by KRA may be rejected by the Fund. The KYC compliance status will be validated with the records of the KRA. AMC reserves the right to call for any additional information from the investors/applicant/reject applications/ subsequent application in order to fulfill the requirements of PMLA norms prescribed by SEBI/PMLA Regulation from time to time.

XI. PURCHASE/REDEMPTION OF UNITS THROUGH STOCK EXCHANGE INFRASTRUCTURE

Investors can purchase and redeem units of the schemes on Mutual Fund Services System (MFSS) of the National Stock Exchange of India Ltd. (NSE) and on the BSE Stock Exchange Platform for Allotment and Repurchase of Mutual Funds (BSE STAR MF System) of Bombay Stock Exchange Ltd. (BSE).

Please refer Scheme Information Document(s) of the Scheme(s) for further details.

XII. INVESTMENTS UNDER THE ZERO BALANCE FOLIO

For Investments under the zero balance folio, signatures on the transaction slip would be required as per the mode of holding.

ZERO balance folio is for opening folio only.

- XIII. Investors already holding a folio in Edelweiss Mutual Fund can provide their existing Folio Number and Name of applicant(s) corresponding to the said folio. It is the responsibility of the Investor to ensure correctness of such details provided. The personal details and Bank Account details as registered in the existing folio number as provided would apply to the said investment and the registered details would prevail over any conflicting information furnished in this form. Edelweiss Asset Management Limited reserves the right to assign any of the existing Folio Number of the investor against multiple applications and / or subsequent purchases under this new application form lodged, with identical mode of holding and address and such other criterions and integrity checks as may be determined by the Edelweiss Asset Management Limited from time to time.

XIV. EMPLOYEE UNIQUE IDENTIFICATION NUMBER (EUIIN):

SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of Mutual Fund products to quote the EUIIN obtained by him/her from AMFI in the Application Form. EUIIN, particularly in advisory transactions, would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Individual ARN holders including

senior citizens distributing Mutual Fund products are also required to obtain and quote EUIIN in the Application Form. Hence, if your investments are routed through a distributor please ensure that the EUIIN is correctly filled up in the Application Form.

However, if your distributor has not given you any advice pertaining to the investment, the EUIIN box may be left blank. In this case, you are required to provide a duly signed declaration to this effect. Distributors are advised to ensure that the sub broker affixes his/her ARN code in the column separately provided in addition to the current practice of affixing the internal code issued by the main ARN holder and the EUIIN of the Sales Person (if any) in the EUIIN space.

XV. FATCA DETAILS:

The Foreign Account Tax Compliance Act is a United States (US) federal law, aimed at prevention of tax evasion by US Citizens and Residents ("US Persons") through use of offshore accounts. The FATCA provisions were included in the HIRE Act enacted by the US legislature. FATCA is designed to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments.

As per SEBI circular no. CIR/MIRSD/2/2014 dated June 30, 2014, the Government of India and the US have reached an agreement in substance on the terms of an Inter-Governmental Agreement ("IGA") to implement the FATCA provisions, which have become globally applicable from July 1, 2014. FATCA requires enhancement of due diligence processes by the Foreign Financial Institutions ("FFI") so as to enable identification of US reportable accounts.

The Fund/ Edelweiss Asset Management Limited ("the AMC") are likely to be classified as a FFI under the FATCA provisions, in which case the Fund /the AMC would be required, from time to time, to (i) undertake necessary due diligence process by collecting information/ documentary evidence of the US/non US status of the investors; (ii) disclose/report information as far as may be legally permitted about the holdings/investment returns pertaining to reportable accounts to the US Internal Revenue Service and/or such Indian authorities as may be specified under FATCA or other applicable laws and (iii) carry out such other activities as prescribed under the FATCA provisions, as amended from time to time.

FATCA due diligence will have to be directed at each investor/unit holder (including joint investors) and on being identified as a reportable person/specified US person, all the folios will be reported. Further, in case of folio with joint investors, the entire account value of investment portfolio will be attributable under each such reportable person. Investors/Unit holders would therefore be required to furnish such information to the Fund/AMC, from time to time, in order to comply with the reporting requirements stated in the IGA and/or circulars/guidelines issued by SEBI/AMFI in this regard.

The impact of FATCA is relevant not only at the point of on-boarding of the investors but also throughout the life cycle of the investor account / folio with the Fund. Hence investor(s) should immediately intimate the Fund/AMC, in case of any change in the FATCA related information provided by them at the time of initial subscription.

The Fund/AMC reserves the right to reject any application or compulsorily redeem the units held directly or beneficially in case the applicant/investor fails to furnish the relevant information and/or documentation or is found to be holding units in contravention of the FATCA provisions.

Investors are advised to consult their tax advisors to understand the FATCA requirements and its implications in relation to their investment.

XVI. CENTRAL KYC RECORDS REGISTRY (CKYCR):

The Government of India vide their Notification dated November 26, 2015 authorised the Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) to act as and to perform the functions of the Central KYC Records Registry under the said rules, including receiving, storing, safeguarding and retrieving the KYC records under the Prevention of Money Laundering Act, 2002. SEBI required all the market intermediaries to update/upload KYC details of the new customer/investors (not KYC-KRA compliant) on CERSAI's online platform. CERSAI is a centralized repository of KYC records of customers/investors in the financial sector with uniform KYC norms and inter-usability of the KYC records across the sector with an objective to reduce the burden of producing KYC documents and getting those verified every time when the customer/investors creates a new relationship with a financial entity. Central KYC (CKYC) will store all the customer/investor information at one central server that is accessible to all the financial institutions. After opening a KYC account under the CKYC, customer/investor will get a 14-digit identification number ("KYC Number") and that the same may be quoted by the investor wanting to invest in mutual funds. Further, the Mutual Fund/AMC is required to check whether the PAN of the investor has been updated in CKYCR. In case the PAN has not been updated, the Mutual Fund/AMC shall collect a self certified copy of the investor's PAN card and update/upload the same in CKYCR. In case the Investor uses the old KRA KYC form for updating of any KYC information, such investor shall be required to provide additional/missing information only by using the supplementary CKYC form or fill the new "CKYC form".

XVII. BENEFICIAL OWNERSHIP DETAILS (UBO):

Under the Prevention of Money Laundering Act, 2005 ("PMLA"), all intermediaries including mutual funds are required to obtain sufficient information from their clients in order to identify and verify the persons who beneficially own or control the account. SEBI circular dated January 24, 2013 on identification of Beneficial Ownership has prescribed a uniform approach to be followed for determination of beneficial owners. A 'Beneficial owner' is defined as a natural person/s who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted, which includes persons who exercise ultimate effective control over a legal person or arrangement.

All categories of investors except individuals, company listed on a stock exchange or majority owned subsidiary of such company, are requested to provide details about beneficial ownership in the Application Forms for all their investments. The Fund reserves the right to reject applications/restrict further investments or seek additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with the Fund/Registrar.

XVIII. NPO INSTRUCTIONS:

- a) As per Prevention of Money-laundering (Maintenance of Records) Amendment Rules, 2023 dated Mar 07, 2023,
 - i. Definition of Non-Profit Organization (NPO) has been revised. "Non-profit organization" means any entity or organization, constituted for religious or charitable purposes referred to in clause (15) of section 2 of the Income-tax Act, 1961 (43 of 1961), that is registered as a trust or a society under the Societies Registration Act, 1860 (21 of 1860) or any similar State legislation or a Company registered under the section 8 of the Companies Act, 2013 (18 of 2013).
 - ii. Controlling ownership interest % has been revised from 25%/15% to 10% for Corporate/ Trust respectively to consider as an Ultimate Beneficiary Owner (UBO).
- b) As per new PML amendment, every Banking Company or Financial Institution or intermediary has to ensure that the NPO, it is servicing gets registered on the DARPA Portal, if not already registered. New accounts / folios will not be created for NPOs by the Mutual Funds, without such registration. Visit NGO Darpan website - <https://ngodarpan.gov.in/> for DARPA registration.
