*Data as on 30th November 2023

Macro Catalysts

Cyclical forces converging

From sticky inflation to easing conditions

Inflation which had been sticky above RBI comfort of 4%, has come down substantially. Higher than required real rates led to rate cuts and higher liquidity.

Improving liquidity and rate environment support credit growth

Positive liquidity will aid credit & economic growth

Lower interest rates will lead to lower cost of borrowings

Credit growth has bottomed out

After bottoming out, credit has started to pick up, aided by rate cuts, a favorable monsoon, GST relief and improving liquidity

India's Megatrends → One Meta Opportunity

Structural drivers of Indian Financial Services

Landscape of Indian financial services in the listed space

Financial services form ~1/5th of the Nifty500 universe

Investment opportunity set expanding

India has witnessed a fast-paced transition of businesses within Financial Services

Digitalization

Beneficiaries: Fintech,
Payment aggregators

Megatrend 1

Uptick in Consumption + Capex

MEGATREND 1:

A booming consumer economy and a strengthening capex cycle

BENEFICIARIES:

Lenders: Banks & NBFCs

India's untapped retail lending opportunity

India's low household debt-to-GDP and modest retail borrower base offer ample room for retail loan growth

Household debt as % of GDP across major economies

Retail borrowers as % of working age population stands at ~23%

Retail & MSMEs driving credit demand in NBFCs

NBFC growth is migrating to retail + MSME, powered by housing, vehicles, and consumer spends

Secular rise in NBFC credit portfolio with huge potential

Easy availability of credit score, use of data analytics, product innovation has led to credit improvement in NBFC customer penetration

NBFC Credit (₹ Tn)

Factors to watch out

1 Huge under penetration in the unorganized SME & MSME sector

4 Evolution of newer business models and products

2 Retail and consumer finance supported by digital lending

5 Capital positioning of NBFCs remain healthy, with CRAR of 27% (as of FY25), well above min. requirement of 15%

3 Easing liquidity and falling interest rates leading to more credit growth

6 Better regulatory oversights and pro-active actions

David in a world of Goliaths - India's banking story

Rank	Bank	Country	Assets (Bn \$)
1	Industrial & Commercial Bank of China Ltd.	China	6,639
2	Agricultural Bank of China Ltd	China	5,934
3	China Construction Bank Corp.	China	5,559
4	Bank of China Ltd	China	4,804
5	JP Morgan Chase & Co Ltd.	US	4,003
6	Bank of America Corp	US	3,262
7	HSBC Holdings PLC	UK	2,950
8	BNP Paribas SA	France	2,810
9	Credit Agricole Group	France	2,694
10	Mitsubishi UFJ Financial Group Inc.	Japan	2,628
43	State Bank of India	India	947
73	HDFC Bank	India	484

Key Highlights

While Indian banks are now globally relevant in size, especially SBI and HDFC Bank, they still remain far smaller than global mega-banks

This gap highlights a long structural growth runway as India's credit penetration and financialization continue to rise

Healthier bank balance sheet

Progressing from stress resolution to growth acceleration, banks have rebuilt capital buffers and are now positioned for measured, profitability-led expansion

Banking System – Return Ratios

Gross Non-Performing Assets (GNPA %)

Megatrend 2

Financialization of Savings

Mutual Fund adoption continues to scale new highs

AUM expansion, SIP inflows, and record folio growth signal deepening participation

Rising incomes and awareness fueling Capital Markets participation

~5X growth in Demat accounts since FY19

Increased allocation of flow of Household Financial
Savings towards MF & Equities

Demat Account (Mn)

■ MF ■ Equity

India's wealth management story has only begun

India's investment & wealth management market is poised to double by FY30, growing at 15–17% annually driven by rising investor participation and higher per-user revenues

Revenue pool for Investment & Wealth Management (INR Cr)

■ Brokerage ■ Wealth Management

Wealth under professional advice (%)

Megatrend 3

Demographic Dividend

India's demographic shift

India presents a significant long-term opportunity for annuity & life insurance products

Rising median age

Median Age (yrs)

Share of working age population is rising

Insurance market is underpenetrated with low density

- India's insurance penetration remains lower as compared to its global peers and world average
- Insurance density being significantly low due to affordability and awareness barriers and low adoption of pure-risk covers

	India		Global	Malaysia	Thailand	China	USA
	FY18	FY19	FY18	FY18	FY18	FY18	FY18
Insurance Penetration (%)	1.8%	1.8%	7.1%	8.3%	8.9%	18.3%	11.8%
Per capita Insurance premium (USD)	~12	~18	~180	~180	~180	~150	\$,800 (2016)

India is the 10th largest insurance market in the world and is projected to be the 6th largest market by 2032

Megatrend 4

Digitalization

India's internet dividend

India's digital revolution led by affordable internet is democratizing access and driving a positive impact on the financial system

FY25 FY30P Penetration in population

Access to internet

Active internet users

UPI transactors

Note: 1. Access to internet refers to total population with access to internet. 2. Active internet users refers to those who use social media, google but don't necessarily transact online. 3. Digital transactors refers to transactors of services and product through digital payments
Source: Resoer Research and Analysis

Digital players focus on underserved groups

- Banks typically avoid lending to low-income due to high operational costs
- Digital lenders are addressing the large pool of first-time borrowers who are excluded from formal credit due to thin credit file

Share of total loan originated by Digital Lenders (Dec 24)

Personal Loan Portfolio: Fintech vs Rest of Industry (Dec 24)

Date	Fintech	Rest of Industry
% of young customer(<30 years)	51%	36%
% customers from semi-urban and rural	55%	51%
ATS for Customers ¹	~310	~3,400

Introducing

**Edelweiss
Financial Services Fund**

About the Fund

Investment Objective:

The investment objective of the scheme is to generate long-term capital appreciation by investing predominantly in equity and equity related securities with a focus on companies engaged in financial services sectors. However, there is no assurance that the investment objective of the scheme will be achieved.

Investment Strategy:

Bottom-up stock selection focused on identifying high-quality financial services businesses

Alpha driven investment approach investing approach

FAIR investment philosophy to evaluate businesses based on **Forensics**,

Acceptable Price, **Investment Style** **Agnostic**, and **Business**

Targeting structural compounds with strong profitability and potential for valuation re-rating

Asset Allocation Instruments	Indicative Allocation (% to net assets)	
	Minimum	Maximum
Equity & Equity related instruments selected on the basis of Financial Services sector ⁽¹⁾⁽²⁾	80%	100%
Other Equity & Equity related instruments	0%	20%
Debt and money market instruments ⁽³⁾	0%	20%
Units issued by InvITs	0%	10%

Investment Philosophy

Our **FAIR** investment framework helps in identifying robust and clean businesses available at acceptable prices without being biased toward either value or growth investing styles.

**F**

Forensics

Use forensic framework to check accounting quality, board governance standards and ownership background

A

Acceptable Price

Emphasize reasonably priced businesses with earnings power over the medium term, rather than focusing on the short term

I

Investment Style Agnostic

Emphasize investing in strong businesses capable of delivering long-term returns, while remaining agnostic to value or growth investing styles.

R

Robustness

Pick well managed businesses having scalable opportunities and superior return on capital employed

We use a forensic analysis to pick only clean and quality businesses from the available universe

We do forensic analysis in 4 key areas before we like any business

Accounting quality | Board governance | Ownership checks | Management integrity

Forensic Analysis Framework

Acceptable Price

Focus on reasonably priced businesses with medium term earnings power

Investment value analysis Framework

- ✳ We analyse stocks and categorise them under 3 buckets
 - i. Discounted Value stocks
 - ii. Compounding Value stocks
 - iii. Risk-management stocks – Stocks we own due to their presence in benchmark
- ✳ A combination of Discounted and compounding value makes us Value/Growth style agnostic

Discounted Investment Value

- ✳ We derive discounted value based on % discount compared to intrinsic value of the stock
- ✳ This bucket includes event driven, deep Value and turn-around businesses
- ✳ Current Examples of businesses with static value – SBI and Indian Bank

Compounding Investment Value

- ✳ We derive compounded value based on estimated growth in intrinsic value over next 2 years.
- ✳ This bucket includes consistent compounders that are sector leaders and market share gainers
- ✳ Current Examples of businesses with dynamic value – Titan Co Ltd and Trent Ltd.

Pick well managed businesses having scalable opportunities and superior return on capital employed

Qualitative factors:

Quantitative factors:

1. 5yr. average core business returns more than 10% to ensure company is earning higher than its cost of capital
2. Current year Sales, EBITDA, PAT should be more than 5yr. average Sales, EBITDA, PAT to ensure we leave out de-growing companies
3. Higher cash-flow conversion compared to sector peers over last business cycle

Our Investment Process

Case Study – Muthoot Finance Ltd

India's leading gold-loan NBFC with ~75% market share, with 4,800+ branches

Structural compounding

Gold Loan AUM

Greater use of household gold and gold-price tailwinds are driving strong AUM expansion

Profitability

Profitability

Increase in loan growth, rising margins and operating leverage are driving profit growth

Re-rating

Valuation Multiples (x)

Consistent PAT momentum and return ratios are driving valuation

Case Study – Karur Vysya Bank Ltd

South India focused private bank with a strong MSME and retail lending franchise, backed by a deep semi-urban branch network and improving asset quality

Structural compounding

Trend in Advances

KVB has explicitly prioritized growth in its Retail, Agriculture & MSME segments

Profitability

Profitability

Stable margins, lower credit costs are driving KVB's return ratios

Re-rating

Valuation Multiples (x)

Strong profit growth and return ratios has led to valuation re-rating

Case Study – MCX Ltd

India's dominant commodity derivatives marketplace (~88% share), enabling futures and options trading in metals, bullion and energy

Structural compounding

Revenue Trend

Transaction fees which drives over 85% of its topline continues to be underpinned by consistently strong average daily turnover

Profitability

Margin and Return Ratio

MCX's asset-light, fee-driven model converts rising ADT and volumes into expanding margins through strong operating leverage

Re-rating

Valuation Multiple (x)

Consistent volume growth, improving margins & strong return ratios have led to valuation re-rating

Case Study – Credit Access Grameen Ltd

Top rural microfinance leader with 6% market share, delivering flexible credit solutions to low-income women and sustaining high customer loyalty with 88% retention

Structural compounding

Loan Book (in INR Cr)

The loan book of the company has grown at a healthy ~23% CAGR over the past decade

Profitability

Profitability

The profitability peaked out in FY24 and is expected to revive from FY26 due to the cyclical nature of the business

Re-rating

Valuation Multiple (x)

With the expectations of MFI cycle turning around, valuation has re-rated

Fund Managers

Mr. Ashwani Agarwala (Fund Manager – Equity)

With over 20 years of experience in investment management, an MBA – Finance from T. A. Pai Management Institute (TAPMI), 2003 – 2005, CFA charter-holder, meet Mr. Ashwani Kumar Agarwala.

Ashwani manages our EL88 fund, credited with timely investing in PSU banks, gold finance and capital market companies. He has covered various sectors, across market caps. He specialises in BFSI, auto and cyclical sectors. He likes to invest in structural long-term compounders and rising stories and generate alpha.

Mr. Trideep Bhattacharya (CIO – Equities)

With a PGDPM in Finance from SP Jain Institute of Management & Research, Mumbai and a B.Tech in Electrical Engineering from IIT, Kharagpur, meet our CIO Equities – Mr. Trideep Bhattacharya. Trideep comes with over two decades of experience in Equity Investing across Indian and Global markets. Prior to joining Edelweiss AMC, he was instrumental in building a market-leading PMO business at Axis Asset Management Company, as Senior Portfolio Manager – Alternate Equities.

He has also spent a significant amount of time as a Portfolio Manager at State Street Global Advisors and UBS Global Asset Management (London, UK).

Mr. Amit Vora, Head of Dealing and Fund Manager – Overseas Investments

With over 18 years of rich experience in equity dealings in the financial markets, meet our Head of the Equity Dealing Desk, Mr. Amit Vora. Amit has been associated with Edelweiss Asset Management Limited since 2018. His role here involves overseeing equity trading activities and managing investments in foreign securities. He has a strong track record of generating trading ideas, managing trades of mutual funds and foreign institutional investors (FIIs), and driving successful outcomes in the financial industry.

Amit's past associations include a stint at Antique Block Broking, where he was designated the A/P – Sales Trader and generated trading ideas and managed trades of mutual funds and FIIs.
