If the exposure falls outside the above-mentioned asset allocation pattern, the portfolio shall be rebalanced by AMC within 7 calendar days from the date of said deviation.

Portfolio Rebalancing:

In line with clause 3.6.7.1 of SEBI Master Circular for mutual funds dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days.

Timelines for deployment of funds collected in NFO:

Pursuant to SEBI circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2025/23 dated February 27, 2025; the

fund manager shall aim to deploy the funds garnered during the NFO within 30 business days from the date of allotment of units.

In an exceptional case, if the fund manager is not able to deploy the funds within 30 business days as per the scheme's asset allocation, reasons in writing, including details of efforts made to deploy the funds, will be placed before the Investment Committee. The Investment Committee, after examining the root cause for delay in deployment, may extend the timeline by 30 business days.

There can be no assurance that the investment objective of the scheme will be achieved.

B. WHERE WILL THE SCHEME INVEST?

The Scheme will invest in securities which are constituents of Nifty Midcap 150 Index, Equity Derivatives, Government Securities, Triparty Repo, SDLs, treasury bills and units of liquid mutual fund.

A brief narration of the Instruments are as under:

1. Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, and 364 days. T-bills are issued at a discount to their face value and redeemed at par.
2. Triparty Repo.
3. Securities created and issued by the Central Governments as may be permitted by RBI, securities guaranteed by the Central Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. They form part of Government's annual borrowing programme and are used to fund the fiscal deficit along with other short term and long term requirements. Such securities could be fixed rate, fixed interest rate with put/call option, zero coupon bond, floating rate bonds, capital indexed bonds, Fixed Interest security with staggered maturity payment etc.
4. Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. When the seller sells the security with an agreement to repurchase it, it is Repo transaction whereas from the perspective of buyer who buys the security with an agreement to sell it at a later date, it is reverse repo transaction. The scheme can participate in Repo/Reverse Repo in G-Secs and T-Bills.

(Please refer section II for Detailed definition and applicable SEBI (MF) Regulations/guidelines for each instrument)

C. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme will track Nifty Midcap 150 Index and will use a "passive" or indexing approach to endeavour to achieve scheme's investment objective. Unlike other funds, the scheme will not try to "beat" the market it track and do not seek temporary defensive positions when market decline or appear overvalued. The AMC does not make any judgments about the investment merit of a particular stock or a particular industry segment nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/underperformance vis-à-vis a benchmark.

Since the scheme is an exchange traded fund, the scheme will only invest in the securities constituting the underlying index. However, due to corporate action in companies comprising of the index, the scheme may be allocated/allotted securities which are not part of the index. The scheme may hold upto 5% of their total assets in stocks not included in the corresponding Underlying Index. For example, the AMC may invest in stocks not included in the relevant Underlying Index in order to reflect various corporate actions (such as mergers) and other changes in the relevant Underlying Index (such as reconstitutions, additions, deletions and these holdings will be in anticipation and in the direction of impending changes in the underlying index).

These investments which fall outside the underlying index shall be rebalanced within a period of 7 calendar days

Derivative Strategies

The Scheme may take exposure to derivatives for non-hedging purpose as permitted by SEBI (MF) Regulations from time to time. Such exposure to derivative instruments will be in line with the investment objective and overall strategy of the scheme.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies”.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

For detailed derivative strategies, please refer to SAI.

For details pertaining to Risk Controls Strategies refer Point no. C in section II of the Scheme Information Document.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The First Tier benchmark of the Scheme is Nifty Midcap 150 Index.

The same has been chosen as this Scheme primarily invests in securities which are constituents of Nifty Midcap 150 Index. Thus, the composition of the aforesaid benchmark is such that it is most suited for comparing performance of the Scheme.

vi. Investments of AMC in the Scheme –

Please refer to our website - <https://www.sbimf.com/offer-document-sid-kim>

In accordance with Regulation 25(16A), the asset management company shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by the Board from time to time. But the AMC shall not be entitled to charge any management fees on this investment in the scheme.

Investments by the AMC will be in accordance with Regulation 25(17) of the SEBI (MF) Regulations which states that:

"The asset management company shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the Scheme Information Document (SID), provided that the asset management company shall not be entitled to charge any fees on its investment in the scheme."

Part III- OTHER DETAILS

A. COMPUTATION OF NAV

The first NAV will be calculated and announced not later than 5 business days from the date of allotment in the NFO. Subsequently, the NAV of the Scheme shall be computed and declared on every business day. The NAV under the Scheme would be rounded off to 4 decimals as follows or such other formula as may be prescribed by SEBI from time to time:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provision}}{\text{No of Units outstanding under Scheme on the Valuation Date}}$$

NAV will be disclosed in the manner as specified under SEBI (MF) Regulations. NAV can also be viewed on www.sbimf.com and www.amfiindia.com.

The AMC shall update the NAVs on the website of Association of Mutual Funds in India - AMFI (www.amfiindia.com) by 11.00 p.m. In case of any delay, the reasons for such delay would be explained to AMFI and SEBI by the next day. If the NAVs are not available before commencement of business hours on the following day due to any reason, the Fund shall issue a press release providing reasons and explaining when the Fund would be able to publish the NAVs.

Further, as per SEBI (MF) Regulations, the repurchase price shall not be lower than 97% of the NAV.

Methodology for calculation of sale and re-purchase price of the units of mutual fund scheme:

Let's assume that the NAV of a Mutual Fund Scheme on April 01, 2018 is Rs. 10/-.

Purchase of mutual fund units:

The Purchase Price of the Units on an ongoing basis will be same as Applicable NAV.

Purchase Price = Applicable NAV

In the above example, purchase is done on April 01, 2018, when the Applicable NAV = Rs. 10/-
Therefore, Purchase Price = Rs. 10/-

As per existing Regulations, no entry load is charged with respect to applications for purchase / additional purchase of mutual funds units.

Redemption/Re-purchase of mutual fund units

The Redemption Price of the Units will be calculated on the basis of the Applicable NAV subject to prevailing Exit Load, if any. In case of redemption, the amount payable to the investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)

Say, in the above example the exit load applicable is:

- a. For exit on or before 12 months from the date of allotment – 1.00%
- b. For exit after 12 months from the date of allotment – Nil.

Scenario 1: Redemption is done during applicability of exit load

In case the investor requests for redemption on or before 12 months i.e. on or before March 31, 2019; say December 1, 2018, when the NAV of the scheme is Rs. 12/- and the exit load applicable is 1%, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)
= Rs. 12 * (1-1%) = Rs. 11.88/-

Scenario 2: Redemption is done when the exit load is NIL

In case the investor requests for redemption after 12 months i.e. after March 31, 2019; say April 1, 2019, when the NAV of the scheme is Rs. 12/- and the exit load applicable is NIL, so the Redemption amount payable to investor shall be calculated as follows:

Redemption Price = Applicable NAV * (1 - Exit Load)
= Rs. 12 * (1-0) = Rs. 12/-

The aforesaid example does not take into consideration any applicable statutory levies or taxes. Accordingly, the redemption amount payable to investor shall further reduce to the extent of applicable statutory levies or taxes.

Note: The aforesaid disclosure has been made pursuant to para 8.1.5 of SEBI Master Circular for Mutual Funds dated June 27, 2024.

Illustration on Computation of NAV:

If the net assets of the Scheme are Rs. 10,55,40,345.34 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: $10,55,40,345.34 / 1,00,00,000 = \text{Rs. } 10.5540 \text{ p.u.}$ (rounded off to four decimals).

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The entire New Fund Offer expenses for the launch the Scheme will be borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated that the expenses upto 1.00% per annum as per regulation 52(6)(b) (plus additional expenses as allowed under regulation 52(6A)) of the daily net asset will be charged to the scheme. The maximum annual recurring expenses that can be charged to the Scheme, excluding issue or redemption expenses, whether initially borne by the mutual fund or by the asset management company, but including the investment management and advisory fee shall be within the limits stated in Regulations 52 read with Chapter 10 of SEBI master circular for Mutual Funds dated June 27, 2024.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations. These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. incurred towards different heads mentioned under regulations 52(2) and 52(4) and as illustrated in table below:

| Expense Head | % of daily Net Assets |
|--|-----------------------|
| Investment Management and Advisory Fees | Upto 1.00% |
| Trustee fee | |
| Audit fees | |
| Custodian fees | |
| RTA Fees | |
| Marketing & Selling expense | |
| Cost related to investor communications | |
| Cost of fund transfer from location to location | |
| Cost of providing account statements and Income Distribution cum capital withdrawal redemption cheques and warrants | |
| Costs of statutory Advertisements | |
| Cost towards investor education & awareness | |
| Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades respectively (refer note 1 below) | |
| Goods & Services tax on expenses other than investment and advisory fees | |
| Goods & Services tax on brokerage and transaction cost | |
| Listing fees | |
| Other Expenses [^] | |
| Maximum total expense ratio (TER) permissible under Regulation 52 (6) (b) | Upto 1.00% |

| | |
|---|------------|
| Additional expenses under regulation 52 (6A) (c) (refer note 2 below) | Upto 0.05% |
|---|------------|

^ Any other expenses which are directly attributable to the Scheme, may be charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

The aforesaid expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations. This means that mutual fund can charge expenses within overall limits, without any internal cap on the aforesaid expenses head.

In addition to expenses as permissible under Regulation 52 (6) (b), the AMC may charge the following additional costs or expenses to the scheme:

1. In terms of Regulation 52 (6A) (a), Brokerage and transaction costs which are incurred for the purpose of execution of trade up to 0.12 per cent of trade value in case of cash market transactions and 0.05 per cent of trade value in case of derivatives transactions. Further in terms of paragraph 10.1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024, any payment towards brokerage and transaction cost, over and above the said 0.12 per cent and 0.05 per cent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Goods & service tax on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the Regulations.
2. In terms of Regulation 52 (6A) (c), the scheme may charge additional expenses incurred towards different heads mentioned under regulations (2) and (4), not exceeding 0.05% of the daily net assets. Pursuant to paragraph 10.1.7 of SEBI Master Circular for mutual funds dated June 27, 2024 additional expenses under regulation 52 (6A) (c) shall not be levied if the scheme doesn't have exit load.
3. The Goods and Service Tax (GST) on investment management and advisory fees would be charged in addition to above limit. Further, GST on expenses other than investment and advisory fees shall be borne by the Scheme within the maximum limit of annual recurring expenses as prescribed in Regulation 52.
4. As per SEBI Circular No. HO/(83)2025 IMD POD 1//152/2025 dated November 27, 2025, mutual fund distributors shall be eligible for an additional commission for onboarding
 - i. new individual investors (new PAN) from B-30 cities, at the Mutual Fund industry level and
 - ii. new women individual investors (new PAN) from both Top 30 and B-30 cities.

The structure of such additional commission shall be as under:

| Investment mode | Commission |
|----------------------------------|---|
| Lump Sum Investment | 1% of the amount of the first application subject to a maximum of ₹2,000, provided the investor remains invested for a minimum period of one year |
| Systematic Investment Plan (SIP) | 1% of the total investment made during the first year, subject to a maximum of ₹2,000. |

This additional commission will be paid over and above the existing trail commissions and will be funded from the Investor Education Fund, subject to adequate claw back provisions.

For investor education and awareness initiative, the AMC or the Schemes of the Fund will annually set apart at least 0.01 percent of daily net asset of the Schemes of the Fund within the maximum limit of the

total expense ratio as per SEBI Regulation. Further, if the underlying indices of the scheme is notified by SEBI / AMFI in line with the SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, AMC or the Schemes of the Fund will annually set apart 5% of the Total TER charged to direct plans subject to maximum of 0.5 bps of daily net asset of the Schemes towards investor education and awareness initiative.

The Mutual Fund would disclose daily Total Expense Ratio (TER) of scheme on the mutual fund website and on the website of AMFI. Any change in the base TER (i.e. TER excluding additional expenses provided in Regulation 52(6A)(b), 52(6A)(c) of SEBI (MF) Regulations and Goods and Services Tax on investment management and advisory fees) in comparison to previous base TER charged to the scheme/plan will be communicated to investors and the notice of such change in base TER will be updated on the website, at least three working days prior to effecting such change, in the manner specified by SEBI from time to time. Investors can refer <https://www.sbimf.com/en-us/disclosure/total-expense-ratio-of-mutual-fund-schemes> for Total Expense Ratio (TER) details.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on implementation of SEBI Circular on Total Expense Ratio (TER) and performance disclosure for Mutual Fund.

Illustration of impact of expense ratio on scheme’s returns:

| Illustration of impact of expense ratio on scheme’s returns | |
|--|-----|
| Opening NAV (INR Rs) (a) | 100 |
| Scheme’s gross return for the year | 10% |
| Closing NAV before charging expenses (b) | 110 |
| Total expense charged (INR) (c) | 1 |
| NAV after charging expenses (b-c) | 109 |
| Net return to the investor | 9% |

Above illustration is a simplified calculation to show the impact of the expense charged on the performance to the scheme. In the above illustration total expense charged to the scheme has been mentioned in INR. As per the SEBI regulation, expense to the scheme is charged on daily basis on the daily net assets and as per the percentage limits specified in the SEBI (MF) Regulations.

Illustration on computation of NAV: If the net assets of the Scheme are Rs.10,45,34,345.34 and units outstanding are 10,000,000, then the NAV per unit will be computed as follows: $10,45,34,345.34 / 10,000,000 = \text{Rs. } 10.4534 \text{ p.u. (rounded off to four decimals)}$

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.sbimf.com) or may call at (toll free no. 1800 209 3333/1800 425 5425.) or your distributor.

| Type of Load | Load chargeable (as %age of NAV) |
|--------------|---|
| Exit | Not Applicable, As the Scheme will be listed on NSE and BSE for providing liquidity therefore no exit load will be applicable |

The upfront commission on investment, if any, shall be paid to the ARN Holder directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder.

As per SEBI (MF) Regulations, the repurchase price shall not be lower than 97% of the NAV.

The investor is requested to check the prevailing load structure of the scheme before investing.

Any imposition or enhancement in the load shall be applicable on prospective investments only. At the time of changing the load structure, the mutual fund may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

- i. The AMC shall be required to issue an addendum and display the same on its website immediately.
- ii. The addendum shall be circulated to all the distributors/brokers/Investor Service Centre (ISC) so that the same can be attached to all KIM and SID already in stock till it is updated.
- iii. Latest applicable addendum shall be a part of KIM and SID. (E.g. in case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated).
- iv. Further, the account statements shall continue to include applicable load structure

In accordance with SEBI (MF) Regulations, the repurchase price will not be lower than 97% of the NAV.

Section II

I. Introduction

A. Definitions/interpretation

Please refer the definitions/interpretation as disclosed on our website under:
<https://www.sbimf.com/offer-document-sid-kim>

B. Risk factors

Scheme Specific Risk Factors:

- a. The Trustees, AMC, Fund, their directors or their employees shall not be liable for any tax consequences that may arise in the event that the scheme is wound up for the reasons and in the manner provided under the Scheme Information Document & Statement of Additional Information.
- b. Redemption by the unit holder due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Fund their directors or their employees shall not be liable for any tax consequences that may arise.
- c. The tax benefits described in the SAI & SID are as available under the present taxation laws and are available subject to relevant condition. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India and the Investors and Unit Holders should be aware that the relevant fiscal rules or their interpretation may change. As in the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of the investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor / Unit holder is advised to consult his/her/its own professional tax advisor.

SBI Nifty Midcap 150 ETF would be investing in equities, equity derivatives, Government. Securities, Triparty Repo, units of liquid mutual fund, SDL and treasury bills . The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the right to limit redemptions (including suspending redemptions) under certain circumstances will be in accordance with Paragraph 1.12 of SEBI Master Circular.

The Scheme restricts its investments only in the Securities of the underlying index which consist of companies with relatively smaller size than companies in a large cap market representative index. Smaller size or lower market capitalisation indicates newly-established or early growth nature of the companies. Investing into equity shares of such companies could directly expose the Scheme to higher levels of volatility and market risk than would generally be the case in a diversified fund portfolio of higher market capitalisation equity Securities.

- d. The Mutual Fund is not assuring any Income Distribution cum capital withdrawal (IDCW) nor is it assuring that it will make any Income Distribution cum capital withdrawal (IDCW) distributions. All

Income Distribution cum capital withdrawal (IDCW) distributions are subject to the availability of distributable surplus and would depend on the performance of the scheme.

e. Risks pertaining to transaction in units through Stock Exchange Mechanism

1. **Absence of Prior Active Market:** Although the Scheme is listed on NSE and BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there would be time when trading in the Units of the Scheme would be infrequent.
 2. **Trading in Units may be Halted:** Trading in the Units of the Scheme on NSE and BSE may be halted because of market conditions or for reasons that in view of NSE and BSE or SEBI, trading in the Units of the Scheme are not advisable. In addition, trading of the Units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to NSE and BSE and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE and BSE necessary to maintain the listing of the Units of the Scheme will continue to be met or will remain unchanged.
 3. **Lack of Market Liquidity:** The Scheme may not be able to immediately sell certain types of illiquid Securities. The purchase price and subsequent valuation of restricted and illiquid Securities may reflect a discount, which may be significant, from the market price of comparable Securities for which a liquid market exists.
 4. **Units of the Scheme may Trade at Prices Other than NAV:** The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the holdings of the Scheme. The trading prices of the Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme. However, given that Units of the Scheme can be created and redeemed in Creation Units directly with the Fund, it is expected that large discounts or premiums to the NAV of Units of the Scheme will not sustain due to arbitrage opportunity available.
 5. **Regulatory Risk:** Any changes in trading regulations by NSE or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
 6. **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the Securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
 7. **Risk of Substantial Redemptions:** Substantial Redemptions of Units within a limited period of time could require the Scheme to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Units being Redeemed and that of the outstanding Units of the Scheme. The risk of a substantial Redemption of the Units may be exacerbated where an investment is made in the Scheme as part of a structured product with a fixed life. Please also refer to the sections on 'right to limit Redemptions' and 'suspension of Purchase / Redemption / switch of Units' in the Statement of Additional Information. Regardless of the period of time in which Redemptions occur, the resulting reduction in the NAV of the Scheme could also make it more difficult for the Scheme to generate profits or recover losses. The Trustee, in the general interest of the Unit holders of the Scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be Redeemed on any Working Day depending on the total "Saleable Underlying Stock" available with the Fund.
- f. Investments under the scheme may also be subject to the following risks:

I. Investment in Equities and Equity related Securities:

- a. Equities are volatile in nature and are subject to price fluctuations on daily basis. The volatility in the value of the equity instruments is due to various micro and macro economic factors

affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

- b. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the scheme portfolio may result, at times, in potential losses to the scheme, should there be a subsequent decline in the value of the securities held in the scheme portfolio.
- c. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities.
- d. As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of units may be significant in the event of an inordinately large number of redemption requests or a restructuring of the Scheme. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances.

II Risk associated with investing in Money Market Instruments

- a. Credit risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.
- b. Interest Rate risk: This risk is associated with movements in interest rate depends on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However, if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk.
- c. Reinvestment risk: This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- d. Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.
- e. Different types of fixed income securities in which the Scheme would invest carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated
- f. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the

Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

III Market Trading Risks

- i. **Lack of Market Liquidity:** Trading in the units of the scheme on stock exchange may be halted because of market conditions or for reasons that in view of stock exchange or SEBI, trading in the units of the scheme are not advisable. In addition, trading of the units of the scheme are subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of stock exchange necessary to maintain the listing of the units of the scheme will continue to be met or will remain unchanged.
- ii. **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of units which can be redeemed on any business day depending on the total "Saleable Underlying Stock" available with the fund.
- iii. **Redemption Risk:** Investors may note that even though the Scheme is open-ended Scheme, the Scheme would ordinarily repurchase units in creation unit size. Thus unit holdings less than the creation unit size can only be sold through the secondary market on the exchange.
- iv. As the scheme proposes to invest not less than 95% of the net assets in securities comprising of NIFTY MIDCAP 150 INDEX, any deletion of stocks from or addition to in NIFTY MIDCAP 150 INDEX may require sudden and immediate liquidation or acquisition of such stocks at the prevailing market prices irrespective of whether valuation of stocks is attractive enough. This may not always be in the interest of unitholders.
- v. **Asset Class Risk:** The returns from the types of securities in which the scheme invest may underperform returns of general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of securities markets.
- vi. **Passive Investments:** As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.
- vii. The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund depends up on the confirmations to be received from depository (ies) on which the mutual fund has no control.
- viii. **Tracking Error Risk:**

The Fund Manager may not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index.

The tracking error i.e. the annualized standard deviation of the difference in daily returns between the underlying index or goods and the NAV of the ETF/ Index Fund (other than Debt ETFs/ Index Funds) based on past one year rolling data shall not exceed 2%. In case of

unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC's, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any.

ix. **Tracking Difference Risk:**

The Fund Manager may not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index.

Tracking Difference is the Difference of returns between the Scheme and the Benchmark Index annualized over 1 year, 3 Year, 5 Year, 10 year and Scheme Since Inception period. It will be the endeavor of the fund manager to keep the tracking difference as low as possible.

Tracking Difference shall be disclosed only if the scheme has completed 1 year period.

Tracking difference is to be disclosed on a monthly basis on www.sbimf.com and AMFI website.

g. Risks associated with Investing in Foreign Securities:

The Scheme shall not invest in Foreign Securities.

h. Risk Associated with investing in derivatives

a. The AMC, on behalf of the Scheme may use various derivative products, from time to time, in an attempt to protect the value of the portfolio and enhance unit holders' interest. Investors should understand that derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Other risks include but are not limited to the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. There may be a cost attached to selling or buying futures or other derivative instrument. Further there could be an element of settlement risk, which could be different from the risk in settling physical shares. The possible lack of a liquid secondary market for a futures contract or listed option may result in inability to close futures or listed option positions prior to their maturity date.

b. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies

"The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

c. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

d. The derivatives will entail a counter-party risk to the extent of amount that can become due from the party.

e. An exposure to derivatives can also limit the profits from a genuine investment transaction.

- f. Efficiency of a derivatives market depends on the development of a liquid and efficient market for underlying securities and also on the suitable and acceptable benchmarks.
- g. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- i. Risk associated with investment in Securitized debt:

The Scheme shall not invest in Securitized Debt.

- j. Risk associated with Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in which case the securities might go in for auction. In the event of exceptional circumstances resulting in non-availability of securities in auction, such transactions would be financially closed-out at appropriate rates as per exchange regulations. Besides, there will also be temporary illiquidity of the securities that are lent out and the Scheme(s) will not be able to sell such lent out securities until they are returned.

- k. **Risk associated with Partial Execution** : When Market Makers or large investors come directly to the AMC for creation/ redemption in creation unit size, there could be instances of corporate action such as merger/ demerger of companies or market volatility due to which certain stocks may hit the upper or lower circuit or may be unavailable for trade. While the endeavour is to completely replicate the constituents of the underlying index, it may not be possible at times in the above mentioned scenarios. This may have a bearing on processes such as, including but not limited to, the usual unit allotment timelines, price at which the particular stock may be allocated to the investor, refund timelines etc. and may impact the tracking error as well.

- l. **Risk Factor in respect of investment in TREPs**

- i) **Interest rate risk**: This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. While the rate of interest for TREPs remains closely correlated to the repo rate, it also may vary based on inter-bank lending demand & supply. Hence, there remains a risk of rate at which TREPs will get re-invested.

- ii) **Settlement risk**: Since the settlement for TREPs happens through CCIL, the risk of default from counterparty is limited. However, in case a clearing member fails to honour their settlement obligations, the "Default Waterfall" mechanism is used to make complete the settlement process. As per the waterfall mechanism, 1st step. the defaulter's margins and the defaulter's contribution to the default fund have been appropriated; 2nd step: CCIL's contribution is used to meet the losses; 3rd step: Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Hence, the scheme is subject to the risk of loss to the extent of initial margin and default fund contribution being invoked in the event of failure of any settlement obligations.

- m. **Risk pertaining to Nifty Midcap 150 Index**: Nifty Midcap 150 Index comprises of well diversified stocks. Equities are volatile in nature and are subject to price fluctuations on daily basis. The volatility in the value of the equity instruments is due to various micro and macroeconomic factors affecting

the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme.

n. **Risks associated with investing in State Development Loans (SDL)**

Market Liquidity risk with fixed rate SDL, even though the SDL market is relatively liquid when compared to other corporate bond instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by state governments undergo any adverse changes. Interest Rate risk associated with SDL - while SDL generally carry relatively minimal credit risk since they are issued by the respective State Governments, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is, however, not unique to SDL, it exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

- o. **Risks associated with investing in Government of India Securities:** Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other debt instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes. Interest Rate risk associated with Government of India Securities - while Government of India Securities generally carry relatively minimal credit risk since they are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates

p. **Risks associated with ETFs:**

- The Scheme will be a passively managed ETF and may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.
- The scheme will be listed on NSE Limited, however, there can be no assurance that an active secondary market will develop or be maintained.
- Investment in ETFs is subject to tracking error. Factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the Underlying Index and regulatory policies may affect the AMC's ability to achieve close correlation with the Underlying Index of the Scheme. The AMC will endeavor to constantly minimize the tracking error and track the index as closely as

possible.

- q. **Risks associated with investment in units of mutual fund:** Investment in Mutual Fund Units involves investment risks, including but not limited to risks such as liquidity risk, volatility risk, default risk including the possible loss of principal.
- **Liquidity risk:** The liquidity of the scheme's investments is inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemption requests, or of a restructuring of the scheme's investment portfolio, these periods may become significant. In view of the same, the Trustees may limit redemptions (including suspending redemptions) under certain circumstances as specified under the Scheme Information Document.
 - **Volatility risks:** There is the risk of volatility in markets due to external factors like liquidity flows, changes in the business environment, economic policy etc. The scheme will manage volatility risk through diversification across companies and sectors.
 - **Default risk:** Credit risk is risk resulting from uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest. Government Securities have zero credit risk while other debt instruments are rated according to the issuer's ability to meet the obligations.

C. Risk mitigation strategies:

The scheme aims to track the underlying Index before expenses. The index is tracked on a regular basis and changes to the constituents or their weights, if any, are replicated in the underlying portfolio with the purpose of minimizing tracking error.

Investments in equity and money market securities carry various risks such as inability to sell securities, trading volumes and settlement periods, interest rate risk, liquidity risk, default risk, reinvestment risk etc. Whilst such risks cannot be eliminated, they may be mitigated by diversification and hedging.

In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in securities market.

The AMC has necessary framework in place for risk mitigation at an enterprise level. The Risk Management division is an independent division within the organization. Internal limits are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. There is a Board level Committee, the Risk Management Committee of the Board, which enables a dedicated focus on risk factors and the relevant risk mitigants.

For risk control, the following may be noted:

Liquidity risks:

The stocks selected under the underlying index by applying liquidity as one of the criterion and hence the portfolio of the Scheme is reasonably liquid. The index is rebalanced based on certain criteria after which certain illiquid stocks are replaced by more liquid stocks. The fund manager makes the changes to the portfolio accordingly. Therefore, liquidity issues in the scheme are not envisaged.

Volatility risks:

ETF being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus, there is no additional element of volatility or stock concentration on account of fund manager decisions. The fund manager would endeavor to keep cash levels at the minimal to control tracking error.

Interest Rate Risk:

Changes in interest rates affect the prices of bonds as well as equities. If interest rates rise the prices of bonds fall and vice versa. Equity might be negatively affected as well in a rising interest rate environment. A well-diversified portfolio may help to mitigate this risk.

II. Information about the scheme:**A. Where will the scheme invest –**

The Scheme will invest in securities which are constituents of Nifty 150 Midcap TR Index, Equity Derivatives, Government Securities, Triparty Repo, SDLs, treasury bills and units of liquid mutual fund.

A brief narration of Instruments are as under:

1. Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, and 364 days. T-bills are issued at a discount to their face value and redeemed at par.
2. Triparty Repo.
3. Securities created and issued by the Central Governments as may be permitted by RBI, securities guaranteed by the Central Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. They form part of Government's annual borrowing programme and are used to fund the fiscal deficit along with other short term and long term requirements. Such securities could be fixed rate, fixed interest rate with put/call option, zero coupon bond, floating rate bonds, capital indexed bonds, Fixed Interest security with staggered maturity payment etc.
4. Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price. The transaction results in collateralized borrowing or lending of funds. When the seller sells the security with an agreement to repurchase it, it is Repo transaction whereas from the perspective of buyer who buys the security with an agreement to sell it at a later date, it is reverse repo transaction. The scheme can participate in Repo/Reverse Repo in G-Secs and T-Bills.

DEBT MARKET IN INDIA

The Indian debt markets are one of the largest and rapidly developing markets in Asia. Government and Public Sector enterprises are the predominant borrowers in the market. The debt markets have received lot of regulatory and governmental focus off late and are developing fast, with the rapid introduction of new instruments including derivatives. Foreign Portfolio Investors are also allowed to invest in Indian debt

markets subject to ceiling levels announced by the government. There has been a considerable increase in the trading volumes in the market. The trading volumes are largely concentrated in the Government of India Securities, which contribute a significant proportion of the daily trades.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) , Treasury Bills (issued by RBI) and the Triparty Repo .

Government securities are largely traded on a Negotiated Order Matching system (NDS OM) apart from the OTC market. The settlement of trades both in the Gsec markets and the overnight repo and Triparty Repo are guaranteed and done by a central counterparty, the Clearing corporation of India (CCIL). Money market deals involving CD's and CP's are traded and settled on an OTC basis. The clearing and settlement of corporate bond deals are now routed through a central counterparty established by the exchanges BSE (ICCL) and NSE (NSCCL) which settles deals on a DVP (Delivery versus payment) non guaranteed basis.

The current market yields of various instruments and the factors affecting prices of such securities are given hereunder. The securitized instruments of higher ratings generally offer yields which are 50-75 basis points higher than the comparable normal debt instruments.

Following are the yield matrix of various debt instruments as on February 19, 2026:

| Instruments | Indicative yield range |
|-------------------------|-------------------------------|
| Overnight rates | 4.90-4.95 |
| 90 day Commercial Paper | 7.20-7.25 |
| 91-day T-bill | 5.28-5.32 |
| 1 year G-Sec | 5.50-5.60 |
| 5 year G – Sec | 6.32-6.37 |
| 10 year G-Sec | 6.66-6.71 |
| 1 year AAA Bond | 7.00-7.05 |
| 5 year AAA Bond | 7.17-7.23 |

The interest rate market conditions are influenced by the Liquidity in the system, Credit growth, GDP growth, Inflows into the Country, Currency movement in the Forex market, demand and supply of issues and change in investors' preference. Generally when there is a rise in interest rates the price of securities fall and vice versa. The extent of change in price shall depend on the rating, tenor to maturity, coupon and the extent of fall or rise in interest rates. The Government securities carry zero credit risk, but they carry interest rate risk like any other Fixed Income Securities. Money market instruments such as CP's and CD's which are fairly liquid are not listed in exchanges. The impact cost of offloading the various asset classes differ depending on market conditions and may impair the value of the securities to that extent. Further, investments in securitized instruments or structured obligation papers carry a higher illiquidity risk. They also carry limited recourse to the originator, delinquency risk out of the defaults on the receivables and prepayment risk which affects the yields on the instruments.

B. What are the investment restrictions?

The investment policies of the scheme comply with the rules, regulations and guidelines laid out in the SEBI (MF) Regulations. As per the Regulations, specifically the Seventh Schedule, the following investment limitations are applicable to schemes of Mutual Funds as amended from time to time.

- a. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if, -
 - (i) such transfers are done at the prevailing market price for quoted instruments on spot basis. explanation - "spot basis" shall have the same meaning as specified by the stock exchange for spot transactions,
 - (ii) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
 - (iii) For meeting liquidity requirement in a scheme in case of unanticipated redemption pressure
 - (iv) For Duration/Issuer/Sector/Group rebalancing

- b. A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

- c. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. The Scheme may engage in Securities lending done shall be within the framework specified by the Board.

Provided that a mutual fund may not engage in short selling of securities.

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.

Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

- d. The scheme shall not engage in short selling of securities or carry forward transactions.
- e. The mutual fund under all its schemes will not own more than ten per cent of any company's paid up capital carrying voting rights.
Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.
- f. Every mutual fund shall get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
- g. Pending deployment of funds of the Scheme, the AMC may invest funds of the Scheme in short-term deposits of scheduled commercial banks, subject to the following conditions in terms of para 12.16 of the Master Circular for Mutual Funds dated June 27, 2024, as may be amended from time to time:
 - i. "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.

- ii. Such short-term deposits shall be held in the name of the Scheme.
- iii. The Scheme shall not park more than 15% of their net assets in the short term deposit(s) of all the scheduled commercial banks put together. However, it may be raised to 20% with the prior approval of the Trustee. Also, parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- iv. The Scheme shall not park more than 10% of their net assets in short term deposit(s) with any one scheduled commercial bank including its subsidiaries.
- v. The Trustee / AMC shall ensure that the funds of the Scheme are not parked in the short term deposits of a bank which has invested in the Scheme.
- vi. AMC will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.
- vii. The Trustee / AMC shall also ensure that the bank in which a scheme has short term deposits do not invest in the scheme until the scheme has short term deposits with such bank.

The above provisions do not apply to term deposits placed as margins for trading in cash and derivative market

- h. The scheme shall not make any investment in;
 - i. any unlisted security of an associate or group company of the sponsor; or
 - ii. any security issued by way of private placement by an associate or group company of the sponsor; or
 - iii. the listed securities of group companies of the sponsor which is in excess of 35% of the net assets in accordance with the SEBI circular no.SEBI/HO/IMD/IMD-PoD-2/P/CIR/2024/098 dated July 8, 2024.
- i. The scheme shall not make any investment in any Fund of Funds scheme.
- j. The Scheme will not invest in securitized debt.
- k. No loan would be made by the Scheme.
- l. The Scheme shall not invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company.
- m. The Mutual Fund/AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period. The Mutual Fund/ AMC can however deploy the NFO proceeds in TREPS before the closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in TREPS during the NFO period. The appreciation received from investment in TREPS shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the scheme during the NFO period, the interest earned upon investment of NFO proceeds in TREPS shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.
- n. The scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the Asset Management Company.

Provided that such limit shall not be applicable for investments in government securities, treasury bills and Triparty Repo:

Provided further that investment within such limit can be made in mortgaged-backed securitized debt, which is rated not below investment grade by a credit rating agency registered with the Board.

A mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA; or
- b. 8% of its NAV in debt and money market securities rated AA; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of Seventh Schedule of MF Regulation.

Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV.

- o. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time.

The mutual fund scheme shall comply with the norms under this clause within the time and in the manner as may be specified by SEBI.

The investment in unrated debt and money market instruments shall be as per the norms specified by SEBI from time to time.

Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV.

- p. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the fund follow internal norms vis-à-vis limiting exposure to a particular scrip or sector, etc

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of in terms of Regulation 18 (15A) read with Regulation 25 (26) of the SEBI (MF) Regulations and Clause 1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024:

- SEBI has reviewed and provided its comments on the proposal
- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

D. Index methodology -

About the Index:

Nifty Midcap 150 represents the next 150 companies (companies ranked 101-250) based on full market capitalisation from Nifty 500.

This index intends to measure the performance of mid market capitalisation companies.

Nifty Midcap 150 Index is computed using free float market capitalization method, wherein the level of the index reflects the total free float market value of all the stocks in the index relative to particular base market capitalization value.

Eligibility Criteria for Selection of Constituent Stocks:

- i. To be considered for inclusion in Nifty Midcap 150 index, companies must form part of Nifty 500
- ii. Securities will be included if rank based on full market capitalisation is among top 225
- iii. Securities will be included if full market capitalisation is 1.50 times of the last constituent in Nifty Midcap 150
- iv. Securities will be excluded if rank based on full market capitalisation falls below 275 or if constituents get excluded from Nifty 500
- v. Eligibility criteria for newly listed security is checked based on the data for a three-month period instead of a six-month period

Index Re-Balancing: Index is re-balanced on semi-annual basis. The cut-off date is January 31 and July 31 of each year.

Constituents of Nifty Midcap 150 index as on March 09, 2026:

Right to limit Redemption

The Trustee, in the general interest of the Unit holders of the Scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of units, which can be redeemed on any Business Day depending on the total 'Saleable Underlying Stock' available with the Fund.

In accordance with para 1.12 of the Master Circular for Mutual Funds dated June 27, 2024, the provisions of restriction on redemption (including switch out) in Schemes of SBI Mutual Fund are as under:

Restrictions may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts the market liquidity or the efficient functioning of the market such as:

Liquidity Issues: When markets at large become illiquid affecting almost all securities rather than any issuer specific security.

Market failures, exchange closure: When markets are affected by unexpected events which impact functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.

Operational Issues: When exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).

Restrictions on redemption may be imposed for a specified period of time not exceeding 10 Business Days in any period of 90 days.

When restrictions on redemption is imposed, the following procedure will be applied:

No redemption requests upto Rs. 2 Lacs shall be subject to such restriction.

Where redemption requests are above Rs.2 lakh, AMC shall redeem the first Rs.2 Lacs without such restrictions and remaining part over and above Rs.2 Lacs shall be subject to such restrictions.

Any restriction on Redemption of the units shall be made applicable only after specific approval of the Board of Directors of the Asset Management Company and Trustee Company. The approval from the AMC Board and the Trustee giving details of the circumstances and justification shall also be informed to SEBI immediately.

| <p>Requirement of Demat account for investing in the scheme</p> | <p>The applicant under the Scheme will be required to have a beneficiary account with a Depository Participant of NSDL/CDSL and will be required to indicate in the application the Depository Participants (DP's) name, DP ID Number and the beneficiary account number of the applicant.</p> <p>The Performance of SBI Nifty Midcap 150 ETF will have a direct bearing on the performance of the Scheme. In the event the Nifty Midcap 150 Index is dissolved or is withdrawn by India Index Services & Products Limited (IISL), the Trustee reserves a right to modify the Scheme so as to track a different and suitable index and the procedure stipulated in the Regulations shall be complied with.</p> |
| <p>Facilitating transactions through Stock Exchange Mechanism</p> | <p>In terms of paragraph 16.2.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024, units of the Scheme can be transacted through all the registered stock brokers of the National Stock Exchange of India Limited and / or BSE Limited who are also registered with AMFI and are empanelled as distributors with SBI Mutual Fund. Accordingly, such stock brokers shall be eligible to be considered as 'official points of acceptance' of SBI Mutual Fund.</p> <p>Further in line with paragraph 16.2.12 of SEBI master Circular for Mutual Funds has permitted mutual fund distributors to use recognised stock exchanges' infrastructure to purchase and redeem mutual fund units directly from Mutual Fund / Asset Management Companies. Pursuant to paragraph 16.2.6 of SEBI Master Circular for Mutual Funds allowed SEBI Registered Investment Advisors (RIAs) to use infrastructure of the recognised stock exchanges to purchase and redeem mutual fund units directly from Mutual Fund/ Asset Management Companies on behalf of their clients, including direct plans. Thus, units of the Scheme can be transacted through these modes.</p> <p>Further In line with paragraph 16.2.12 of SEBI Master Circular for Mutual Funds dated June 27, 2024, it has been decided to allow investors to directly access infrastructure of the recognized stock exchanges to purchase and redeem mutual fund units directly from Mutual Fund/ Asset Management Companies. SEBI circular has advised recognized stock exchanges, clearing corporations and depositories to make necessary amendment to their existing byelaws, rules and/or regulations, wherever required.</p> |

Exchange Traded Fund (ETF)

ETFs are innovative products that provide exposure to an index or a basket of securities that trade on the exchange like a single stock. ETFs have a number of advantages over traditional open-ended index funds as they can be bought and sold on the exchange at prices that are usually close to the actual intra-day NAV of the Scheme. ETFs are an innovation to traditional mutual funds as ETFs provide investors a fund that closely tracks the performance of an index with the ability to buy/sell on an intra-day basis. Unlike listed close ended funds, which trade at substantial premiums or more frequently at discounts to NAV, ETFs are structured in a manner which allows to create new units and redeem outstanding units

directly with the fund, thereby ensuring that ETFs trade close to their actual NAVs.

ETFs are usually passively managed funds wherein subscription/redemption of units work on the concept of exchange with underlying securities. In other words, large investors/institutions can purchase units by depositing the underlying securities with the mutual fund/AMC and can redeem by receiving the underlying shares in exchange of units. Units can also be bought and sold directly on the exchange.

ETFs have all the benefits of indexing such as diversification, low cost and transparency. As ETFs are listed on the exchange, costs of distribution are much lower and the reach is wider. These savings in cost are passed on to the investors in the form of lower costs. Furthermore, exchange traded mechanism helps reduce minimal collection, disbursement and other processing charges. The structure of ETFs is such that it protects long-term investors from inflows and outflows of short-term investor. This is because the fund does not bear extra transaction cost when buying/selling due to frequent subscriptions and redemptions.

Tracking Error of ETFs is likely to be low as compared to a normal index fund. Due to the Creation/Redemption of units through the in-kind mechanism the mutual fund can keep lesser funds in cash. Also, time lag between buying/selling units and the underlying shares is much lower.

ETFs are highly flexible and can be used as a tool for gaining instant exposure to the equity markets, equitising cash or for arbitraging between the cash and futures market.

Benefits of ETFs

- a. Can be easily bought / sold like any other stock on the exchange through terminals spread across the country.
- b. Can be bought / sold anytime during market hours at prices that are expected to be close to actual NAV of the Scheme. Thus, investor invests at real-time prices as opposed to end of day prices.
- c. No separate form filling for buying / selling units. It is just a phone call to your broker or a click on the net.
- d. Ability to put limit orders.
- e. Minimum investment for an ETF is one unit.
- f. Protects long-term investors from the inflows and outflows of short-term investors.
- g. Flexible as it can be used as a tool for gaining instant exposure to the equity markets, equitising cash, for arbitraging between the cash and futures market.
- h. Helps in increasing liquidity of underlying cash market.
- i. Aids low cost arbitrage between futures and cash market.
- j. An investor can get a consolidated view of his investments without adding too many different account statements as the units issued would be in demat form.

Risks of ETFs

- a. **Absence of Prior Active Market:** Although the units of ETFs are listed on the Stock Exchange for trading, there can be no assurance that an active secondary market will develop or be maintained.
- b. **Lack of Market Liquidity:** Trading in units of ETFs on the Stock Exchange on which it is listed may be halted because of market conditions or for reasons that, in the view of the concerned Stock Exchange or Market Regulator, trading in the ETF Units is inadvisable. In addition, trading in the units of ETFs is subject to trading halts caused by extraordinary market volatility pursuant to 'circuit filter' rules. There can be no assurance that the requirements of the concerned Stock Exchange necessary to maintain the listing of the units of ETFs will continue to be met or will remain unchanged.

- c. Units of Exchange Traded Funds May Trade at Prices Other than NAV: Units of ETFs may trade above or below their NAV. The NAV of Units of ETFs may fluctuate with changes in the market value of a Scheme's holdings. The trading prices of units of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand. However, given that ETFs can be created/ redeemed in Creation Units, directly with the fund, large discounts or premiums to the NAVs will not sustain due to arbitrage possibility available.

1. SBI Mutual Fund is registered with Securities and Exchange Board of India (SEBI) and is as such eligible for benefits u/s. 10(23D) of the Income-tax Act, 1961. Accordingly, the entire income of SBI Mutual Fund is exempt from income-tax. SBI Mutual Fund will receive all its income without deduction of tax at source as per provisions of Section 196 of the said Act.
2. With effect from April 1, 2020, income distributed by a mutual fund in respect of units of mutual funds is taxable in the hands of the unitholders at normal tax rates (plus applicable surcharge and cess).
3. Basic Tax shall be increased by surcharge as per applicable rate and Health & Education Cess at the rate of 4% on aggregate of basic tax & surcharge.
4. Securities Transaction Tax (STT) @ 0.001% is applicable on redemption of units of equity-oriented mutual funds.
5. The Mutual Fund will pay/deduct taxes as per the applicable tax laws on the relevant date considering the provisions of the Income-tax Act, 1961 read with the Income-tax Rules, 1962 and any circulars or notifications or directives or instructions issued thereunder. Please note that grant of DTAA benefit, if any, is subject to fulfilment of stipulated conditions under the provisions of the Income-tax Act, 1961 and the relevant DTAA as well as interpretation of relevant Article of such DTAA.

In case of Resident Investors: TDS is applicable at the rate of 10% on income distributed in excess of Rs.10,000 by a mutual fund.

In case of Non-Resident Investors: TDS is applicable on any income in respect of units of a Mutual Fund at lower of 20% (plus applicable surcharge and cess) or rate of income-tax provided in the relevant DTAA (read with CBDT Circular no. 3/2022 dated 3rd February 2022), provided such investor furnishes valid Tax Residency Certificate (TRC) for concerned FY. Tax will be deducted on Short-term/Long-term capital gains at the tax rates (plus applicable Surcharge and Health and Education Cess) specified in the Finance Act 2025 at the time of redemption of units in case of Non-Resident investors (other than FIIs) only.

TDS at higher rates: In case PAN is not furnished or PAN is inoperative, then TDS as per Section 206AA of the Income-tax Act, 1961 would apply (higher of specified rate or rates in force or 20%), subject to Rule 37BC of the Income-tax Rules, 1962.

The above income-tax/TDS rates are in accordance with the provisions of the Income-tax Act, 1961 as amended by Finance Act 2025. The above rates are based on the assumption that the mutual fund units are held by the investors as capital assets and not as stock in trade.

Investors are requested to note that the tax position prevailing at the time of investment may change in future due to statutory amendment(s). The Mutual Fund will pay/deduct taxes as per the applicable tax laws on the relevant date considering the provisions of the Income-tax Act, 1961. Additional tax liability, if any, imposed on investors due to such changes in the tax structure, shall be borne solely by the investors and not by the AMC or Trustee.

The above information is provided for only general information purposes and does not constitute tax or legal advice. In view of the individual nature of tax benefits, each investor is advised to consult with his/her tax consultant with respect to the specific direct tax implications arising out of their transactions.
